Winchester, September 3.

THE Bishop of this Diocese being not able to attend Her Majesty by reason of his great Age, Mr. Mew his Chancellor, in the Name of his Lordship, with the Clergy of this County, waited upon Her Majesty, being induced by the Rt. Hon. Mr. Secretary Hedges, and addressed himself to Her Majesty in these Words :

MADAM,

THE Clergy of this County beg Leave to lay themselves at Your Majesty's Feet, and to renew their most sincere Vows of Gratitude and Duty.

They likewise congratulate Your Majesty upon the happy Success of Your Arms; beseeching Almighty God to continue the Blessings of Your Reign, and to make it as glorious for Your Majesties, as it is for Your Piety, to all future Ages.

Her Majesty was pleased to receive them very graciously; and they all had the Honour to kiss Her Majesty's Hand.

Lambert Blackwell, Her Majesty's late Extraordinary to the Great Duke of Tuscany, returned to the Republick of Genoua, being returned from Florence; and William Aglionby Esq; being returned back from Zurich, where he resided in Quality of Her Majesty's Envoy Extraordinary to the Confederate States of the Swiss Cantons; both came hither on Saturday last, and yesterday the Honour to kiss Her Majesty's Hand, and were graciously received: They were afterwards introduced to his Royal Highness, from whom they also met with a favourable Reception.

Turin, August 26. N. S. The 18th Instant a Courier came from Turin, with Letters of the 7th, giving an Account, that the French had passed the River Stura the day before; Duke de la Feuillade having taken up his Quarters at Rome; and that he expected a considerable Train of Artillery, in order, as was supposed, to besiege Turin. About 3000 Malcontents, commanded, as is said, by Count de Saxe, came over the River Mark the 18th Instant into one of the Quarters of Lower Austria, called Markteld, and destroyed several Villages; after which several of their Parties committed the like Disorder in Moravia; but are since withdrawn into Upper Hungary, with the Imperial Army under the Command, in order to advance into Transilvania, to the Malcontents from thence, is said to have passed that of the Danube which divides the Upper Hungary from that of Schutt the 22d Instant near Gurra; and General de Saxe has made great Preparations at Buda for that purpose. Monsieur d'Almeida, Envoy Extraordinary from Portugal, had Audience the 23d of the Emperor and Empress, and this day of the Empress Dowager. The Earl of Marlborough, Her Majesty of Great Britain's Envoy Extraordinary and Plenipotentiary, arrived here this evening.

Francfort, Aug. 29. Prince Lewis advanced yesterday with the Imperial Army under his Command to the Enemy's Lines at Pfaffenhoffen, which his Majesty attacked; but their Forces there, which consisted of several Companies of Horse and a Battalion of Grenadiers, retired making any Resistance; and the Count de Mercey sent them with a Detachment of our Troops, killed 300, took about 100 Prisoners, among whom are a Lieutenant-General, and some other Officers. The Country People tell that the Enemy are retired behind the Canal, having abandoned Haguenau.

Francfort, Sept. 2. The Imperial Army commanded by Prince Lewis repassed the Rhine the 22d past at Dirmstein and Steinmar, and encamped at Lauterbourg; General La Tour, with 12000 Men, having been left on the other side of that River to guard the Lines of Buhl and Stolhoffen. The 28th his Highness advanced towards the French Lines near Haguenau, and forced them at Pfaffenhoffen with inconsiderable Loss. Our Army encamped near the Town last mentioned; as the French Army did between Haguenau and Bischweiler; But we hear that Prince Lewis is since advanced nearer to Haguenau; and that the Enemy are retired more towards Strasbourg. The Prussian Forces which were marching towards the Netherlands being countermanded, repassed the Main this day at Mentz, in order to join Prince Lewis.

Hanover, Sept. 4. The Margrave of Anspach and the Princess his Sister arrived here the 2d Instant. The Marriage between the Electoral Prince of Hanover and her Highness was celebrated the same evening; and yesterday and this day were spent in publick Rejoycings upon this Occasion. To morrow this Court goes into close Mourning for the Death of the Duke of Cell.

Hamburg, Sept. 4. They write from Poland, that the Czar of Muscovy is marched with his Army towards Courland: And Letters from thence of the 24th past say, That a Detachment of Muscovites had taken Post in the Town of Miran, and intended to attack the Castle, in which was a Garrison of 500 Swedes: And that another Body of Muscovite Forces was marched towards Riga, in order to besiege it. The Troops which the King of Poland has drawn together in Saxony are marched towards Poland: And, according to our Advice from Silesia, General Reinchild, who commands the Swedish Troops that were left on the Borders of that Country, is come with them to Meseritz, with intent to oppose the Saxons passing the Oder. Letters from Dantzick of the 30th past say, That General Lewenhaupt, with the Body of Swedish Forces under his Command, was retired to Riga. The King of Sweden was near Warfaw with 10000 Men of his own Forces, and expected more to join him.

From the Duke of Marlborough's Camp at Tirlemont, Sept. 7. N. S. The 28th of the last Month our Army and our Artillery were drawn out, and made a triple Discharge of their Cannon and small Arms, by way of Rejoycing for the Advantage gained by Prince Eugene over the Enemy's Forces in Italy. The 29th the Two Armies marched from Rome; that which is commanded by his Grace the Duke of Marlborough encamped with the Right at Weser, and the Left at Hakendover, between the Rivers Geer and Gias; and the Army of the States, under the Command of Monsieur d'Auverquerque, encamped between Hale and Landen. Lieutenant-General Dedem being detached at the same time with 15 Battalions and as many Squadrons, to take Post before Leuwe, invested that Place the same evening; and part of the Artillery to be employed in the Siege was sent thither from the Camp, the rest being expected from Maffricht. The Enemy in the mean time continued on the other side the Dyle, their Camp being stretched out nearer to Lovain. The first Instant in the morning the Train of Artillery which was to be employed in the Siege of Leuwe set out from Maffricht, and arrived this afternoon before the Place; it consisted of 16 Twenty four Pounders, besides 4 that were sent from the Army, and 12 Mortars. The 2d the Duke of Marlborough reviewed the Army. That afternoon his Grace received an Account from Franckfort, that Prince Lewis had on the 28th past forced the Enemy's Lines at Haguenau with very little Loss. The second at night the Beliegers attacked a Redoubt, of which they soon possessed themselves, the Enemy making very little Opposition; after which two Battalions of Foot began to break Ground, and carried the Trenches within 100 Yards of the Town. At the same time our Men began to work on the Batteries, and in two days time finished one for 10 Guns, and another for 6 Mortars; and the other Batteries were in such forwardness, that they would have been ready to fire the 5th in the morning: but the 3d in the evening

The Governor sent a Letter to Monsieur Dedem, desiring to know on what Terms he might capitulate for the Town, to prevent its being burnt; and the 4th he sent out a Major to Lieutenant General Dedem, with Proposals upon which he was willing to surrender the Place; who returning with the Lieutenant-General's Answer, That he could admit of no other Terms than the Garrison's being Prisoners of War, the Governor accepted the same, on Condition that the Officers might march out with their Swords, and save their Baggage; which being communicated to the Duke of Marlborough, the Deputies of the States, and Monsieur d'Arverquerque, was agreed to; And the 5th at noon Two hundred of our Men took possession of the Town and Citadel, without having fired one Gun, the Garrison, consisting of the first Battalion of Tilly, delivering up their Arms at the same time. This day they marched out, in order to be conducted to Matrich, together with Brigadier-General Du Mont, their Governor, and Monsieur de Mers, the Lieutenant de Roy. We found in the Place 10 Pieces of Brass Cannon, 8 of Iron, and two Brass Mortars, with a great number of Bombs, 10000 Granadoes, 200 Barrels of Powder, 6000 Tools of several kinds, 2000 Muskets, 100 Barrels of Masket-shot, 1800 Sacks of Meal, besides other Provisions and Necessaries. There is Advice, That the Prussian Troops, which were marching this way from the Upper Rhine, are, according to the Orders sent them, marched back to join Prince Lewis's Army. This evening a triple Discharge was made of our Artillery and small Arms, for the advantage gained by Prince Lewis of Bad. n over the Enemy as above-mentioned.

Hague, September 8. N. S. The 4th Instant came in Letters from Paris, with Advice That an Express was arrived at Court from Catalonia, with the News, That the Confederate Fleet came before Barcelona the 22d past; but they give no other Particulars. Letters from Madrid say, Monsieur Amelot, the French Ambassador, was suddenly recalled to Paris, to the great Surprise of every one. A Courier arrived here the 6th Instant at Night with the News of the Taking of Leuwe; the Garrison having surrendered as soon as they saw our Batteries finished, and before one Cannon had been fired against them. It is said our Forces in Flanders are to attack the Fort of Santvliet, near Lillo. General Fagel, who commanded the Forces of this State in Portugal, is recalled. The Letters from Paris, which came in this Day, confirm the Arrival of the Confederate Fleet before Barcelona the 22d; and add, That we had landed 10000 Men there, who had been joined by 2 or 3000, other Advices say 5000, Malecontents from Vick; but they give no further Particulars, only, That the Inhabitants of Barcelona being in their King Charles the Third's Interest, the Governor had planted some Guns in convenient Places to keep them in Awe, and had fortified the Castle on that side which is next the Town. By their last Advices from Italy, the French Army under the Duke de la Feuillade was still at the Venerie: They had nothing new from that which is commanded by the Duke de Vendome.

Dublin, August 28. This day having been appointed by the Lords Justices to be observed as a Day of publick Thanksgiving for the Success of Her Majesty's Arms, under the Command of his Grace the Duke of Marlborough, in forcing the French Lines, and defeating their Troops in the Spanish Netherlands, their Excellencies went to Christ-Church, being attended with the usual Formalities; and after Divine Service was ended, there was a triple Discharge of the Cannon from our Castle, and of the small Arms of the Garrison, which was under Arms. The Lords Justices dined at their respective Houses, where several of the Nobility, Privy Councillors, and General Officers, were splendidly entertained. In the evening there were Bonfires, Ringing of Bells, and all other Demonstrations of the publick Joy upon this great Occasion.
