From the Imperial Camp at Mondodena, Offob. 15. N. S.

HE 9th Instant Prince Eugene gave Orders that we should be in a readiness to march : Accordingly the next morning by break of day we decamped from Treviglio, and marched rowards Britanica. When we were advanced near to that Place it began to rain with great Violence, which obliged us to halt there. The 11th, finding which obliged us to halt there. The 11th, finding the Ways towards Britanica very much spoiled by the Rain, our General thought fit to turn towards the Rain, our General thought fit to turn towards the Rain, our General thought fit to turn towards of that Place. Two Parties of Horse were immediately sent out, one commanded by Lieutenant-Colonel St. Amour, the other by Captain Hochberg, to get Intelligence of the Enemy. Captain Hochberg returned with his Party, being purfued to our very advanced Guards by 1000 of the Enemy's Horse, who, upon fight of some Troops coming to his Assistance, immediately extract to their Assistance. dirly retired to their Army, which had decamped for Rivolta, and was come to Pallaza to observe us. Leutenant-Golonel St. Amour having passed the Serio mear Montorine, was repairing the Bridges over that River, which the Enemy had broke down. Captain Captain Hochberg being sent out again the same day, returned the 13th with 13 French Prisoners and 14 Horses which he had taken. Lieutenant-Colonel St. Amour also deseated a French Party, of whom he killed as Men, and sent in 14 Prisoners, with 18 Horses. He likewise gave Advice, that the French Army was advanced to Lodi. The 14th we came to rhis Camp, which lies near the Serio. Upon our Arrival Prince Eugene fent out Lieutenant-Colonel Spleny, with 90 Horse and all our Hussers, for Intelligence; and soon after we had notice, that the Enemy had passed the Adda at Lodi, and were marching to Picighittone. This evening we are informed, that they have repassed that River at Picighittone, and are encamped near Castel Leone.

Venice, October 16. Prince Eugene decamped from Treviglio the 9th Instant at night, with the Im-perial Army under his Command; and we just perial Army under his Command; and we just now receive an Account, that he is advanced within feven Miles of Crema. The French and Spanish Army commanded by the Duke of Vendosme thereupon marched likewise from Rivolta, and, as we hear, is come within 7 or 8 Miles of the Imperial Atmy. The Imperialists continue to receive frequent Supplies of Men and Ammunition from Germany. Count Lamberg, the Emperor's Ambassador at the Count of Rome, arrived here two days ago from Lucca, and yesterday continued his Journey for Vienna.

Viens, Octob. 17. The 15th Instant we received by Fort Montjuich at Barcelona, and of the great Probability of our Forces being entirely possessed of that Place in a very short time, and consequently of all Ca-calonia, the Inhabitants of which Province are gene-

rally in the Interest of his Catholick Majesty. The Great Master of the Teutonick Order went from hence yesterday towards Breslaw. General Herbeville, with the Imperial Army under his Command, is

said to be marched towards Segedin.

From the Imperial Camp at Wiersheimb, October 23. Monsieur Geldermalsen, Envoy from Holland, went hence the 21st rowards Francfort. There have been fre-quent Conserences held with the Deputies of the Circles of Swabia, Franconia, and the Upper Rhine, in order to fettle Matters in relation to the Winter Quarters to be provided for our Forces: A Garison of our Troops is put into the Caffle of Rauschenberg. It is said we fhall decamp to morrow, and march towards Molsheim.

From the Camp at Calmothout, October 29. The Tren-

ches before Santvliet were opened the 26th Instant at night, and the Batteries having played without Intermission from the next morning; two very practicable Breaches were made by this afternoon, and all things were disposing for assaulting the Place to morrow; but we just now receive Advice, that the Besieged are

pitulating. Paris, October 26. A Courier arrived at Court three days ago, with the News of the Surrender of Barcelong on the 4th Instant. It is said that important Place might have held out longer, but for an Accident. the Magazine taking fire either by a Bomb which fell into it, or, as others fay, being fet on fire by fome Malecontents, which blew up and killed several Per-We have different Accounts of the Capitulation; some say the chief Officers were allowed to retire to Valentia, and the rest of the Garison remained Prisoners of War, which, as well as most of the Officers, declared for King Charles III. Others, that the whole Garison were taken Prisoners of War; but in this they all agree, That all the Soldiers, and most of the Officers, have declared for his Catholick Majesty. The Marquis d'Aytona is said to have embraced the same Interest. As for Don Velasco, no body knows what is become of him : It is believed he either made his Escape, or was killed. It is reported for certain, that the Confederates have made a Detachment to befiege Roses. Our Court appears very apprehensive of the Consequences which the taking of Barcelona may have, it being highly probable that the Kingdom of Arragon, where there are many Favourers of the House of Austria, will follow the Example of the Province of Catalonia.

Hague, Officher 30. N. S. The Letters from Paris which came in this morning, as well as those from Brussels, say, That Bircelona surrendred the 4th In-stant. The Town of Diest has been surprised in the night by a Body of the Enemy's Troops which came from Louvain. An Express is just now arrived, with the News of the Surrender of Santvliet to our Forces, the Garison, as is said, remaining Prisoners of War. They write from Bern of the 21st, that the Courier from Milan was stop'd; so that they had no fresh Ad-

vices from Italy.
