STATE INTELLIGENCE

HONOURS AND AWARDS

CENTRAL CHANCERY OF THE ORDERS OF KNIGHTHOOD

St. James's Palace, London S.W.1.
1st August, 1961.

The QUEEN has been graciously pleased, on the advice of Her Majesty's Canadian Ministers, to give orders for the following appointment to the Most Excellent Order of the British Empire and for the undermentioned award of the George Medal.

To be an Additional Member of the Civil Division of the Most Excellent Order of the British Empire, for Gallantry:

Barrie Clanke FLATHER, M.D., Newton, British Columbia.

Awarded the George Medal:

George Juergen PRIESSLER, Miner, Newton, British Columbia.

A rock blast at the Howe Sound Company mine caused a rock fall of 6,000 tons to cave in the mining floor and the mucking floor of the 49018 foot stope. A man was trapped in a small pocket of rock and broken timber below the caved-in mining floor. Rescue operations were commenced immediately. Two hours later, George Priessler found an aperture approximately 16 inches square leading underneath the caved stope, and managed to crawl through the hole a distance of 42 feet and establish contact at a point 12 feet below the trapped man who told Priessler that his arm was almost completely shattered at the elbow, and that it was bleeding profusely. Priessler crawled back to the east manway safely and reported his findings. After consultation among the miners, it was decided to widen the tunnel Priessler had found and brace it with timber. A natural hole was located leading up through the fallen rock, and it was believed that the man was at the far end of this hole. Priessler entered the hole and found him. Dr. Barrie Flather was brought into the rescue tunnel. After having been warned of the danger of a second rock fall, particularly in the area where the man was trapped, the doctor gave Priessler morphine tablets to take to the casualty. Priessler returned to the tunnel, obtained a lamp and climbed back into the hole for the third time. Dr. Flather then entered the hole. Using a pair of surgical scissors passed up to him, he cut off the injured arm. The operation was performed under very trying conditions. The doctor could not get in beside the trapped man, and was therefore forced to reach in to him. Despite the foul air and the danger of a second rock fall, Dr. Flather entered the tunnel unhesitatingly. He performed an operation under trying and hazardous conditions. Priessler risked his life several times during rescue operations, and displayed outstanding courage and endurance.
