Turin, Nov. 6. N. S.

**T**HE Enemy having laid aside their Design to return into Piedmont, which is become impracticable, by reason of the Season being so far advanced, part of the Troops that were sent into the Valley of Aousta, to guard the Passes on that side, will shortly march from thence to the Milanese, to assist in reducing those few Places in that Duchy and its Dependencies that remain in the Enemy's Hands. Our Duke has caused Casal to be invested by a Detachment of his Troops; but the Weather of late has been so rainy, that his Royal Highness is obliged to defer the besieging of it in Form to a better Opportunity. The same Reason detains Prince Eugene with the Army under his Command at Alexandria, who intends, as soon as the Season becomes more favourable, to attack Valenza; and in the mean time has sent a small Body of his Forces to block up that Place. The Trenches and other Works which the Enemy had cast up before this City during the late Siege are quite levelled, and we are now repairing the Damage they have done to our Fortifications. They write from Milan, That the Prince of Hesse-Cassel was come thither, and Prince Eugene was shortly expected there.

**Pari,** Nov. 22. N. S. Our Ministry are daily in Conference, to consult upon the Means of providing Men and Money in order to carry on the War the next Year, in which they meet with very great Difficulties. Several Projects have been laid before them upon this Subject; in one of which it is proposed, that all Persons of Quality and others shall be obliged to lessen their Equipage; that all the Men Servants they can spare shall be sent into the Army; and that the Clergy, Nobility and other Persons, who have any Place, shall be obliged to bring it to the Mint to be coined. The Disorders in Trade, occasioned by the Paper Credit, increasing daily, Monsieur Chamillard had lately a Meeting with several of our most eminent Merchants, to ask their Opinions concerning the Means of retrieving the Credit of the Money-Bills; but he is not yet come to any Resolution in this Matter. A great Council of War is shortly to be held at Versailles, for settling Measures against the next Campaign. Several of our General Officers are already arrived here from their respective Commands, in order to be present at it, and others are daily expected. Here is a Report, that the Island of Minorca was declared for King Charles III. They write from Grenoble, That the Horse and Dragoons of the Duke of Orleans's Army, that are now in Dauphine, are ordered to march from thence into Franche Compe, where they may be subsisted with less Difficulty, and will continue there this Winter.

And in the whole 93 Battalions and 94 Squadrons of the Forces of the Allies, besides 12 Regiments of Spanish Troops, have taken their Winter Quarters in Brabant and Flanders, which are disposed in such manner, that a considerable Army may be

drawn together in a very short time, whenever there shall be occasion.

**Mastricht,** Nov. 19. N. S. The Forces that are to remain here in Garison during this Winter are all arrived. The Earl of Albemarle is likewise come to Liege with all the Troops that are to Winter there; and 11 Battalions and 21 Squadrons of the King of Prussia's Forces passed the Maese lately at Ruremond, in order to march to the Winter Quarters assigned them between that River and the Rhine.

The Master, Wardens and Assistants, of Trinity-House of Deptford-Strand do (for the Benefit of Navigation) give Notice to all Masters and Pilots of Ships, That the lower Light at Caistor is so far removed, as that by bringing the two Lights on, it is a direct Mark to carry them without the Bay of the Barber.
