State Intelligence

HONOURS AND AWARDS

COLONIAL OFFICE

Church House,
Great Smith Street, London S.W.1.

The QUEEN has been graciously pleased to approve the immediate award of the Colonial Police Medal for Gallantry to:

Bisop anak Kunjan, Constable, Sarawak Police Force.

Sangah anak Jamba, Constable, Sarawak Police Force.

Saini bin Baker, Corporal, Sarawak Police Force.

Abdul Latip bin Besah, Inspector, Sarawak Police Force.

The QUEEN has been graciously pleased to approve the immediate award of the Colonial Police Medal for Gallantry to Inspector Lyndon James Gordon Burt of the Kenya Police.

PRIVY COUNCIL OFFICE

28th May 1963.

UNIVERSITIES OF OXFORD AND CAMBRIDGE ACT 1923

A Statute made by the Governing Body of Balliol College, in the University of Oxford, on the 23rd May 1963, has been submitted for the approval of Her Majesty in Council, and notice of its having been so submitted is published in accordance with the provisions of the Universities of Oxford and Cambridge Act 1923.

TREASURY

Treasury Chambers,
Great George Street, London S.W.1.

The Lords Commissioners of Her Majesty's Treasury hereby give notice that, at a Trial of the Pyx begun at Goldsmiths' Hall in the City of London on the 28th day of February and concluded on the 10th day of May 1963, the following Verdict of the Pyx Jury was delivered to the Queen's Remembrancer, viz.:

TRIAL OF THE PYX OF THE LONDON MINT

Verdict

We, whose names are hereunder written, having been sworn on the 28th day of February 1963, before Master B. A. Harwood acting for the Queen's Remembrancer at Goldsmiths' Hall in the City of London, made the following assays and trials of

Her Majesty's coins which, according to accounts produced by the officers of the Royal Mint in London, were coined in the said Mint from the 1st day of January 1962 to the 31st day of December 1962, both dates inclusive, in accordance with the Coinage Acts, 1870 to 1946 (hereinafter called "the Acts") and were set aside and placed in the pyx of the said Mint as prescribed by regulations made under the Acts.

1. We ascertained the number of coins in each packet produced to us and that such number corresponded with the number which the officers of the Mint represented the packet to contain.

2. We found no gold coins in the said pyx.

3. (a) We found that the silver coins in the said pyx weighed in all not more than 12 ounces troy.

(b) We weighed in bulk such silver coins and we ascertained that they were on the whole within the variation from standard weight allowed under the Acts, being two thousandth parts of an ounce (+ 0.002) above standard weight.

(c) We then assayed such silver coins comparing them with the silver trial plate produced by the Board of Trade, and we found that they were on the whole within the variation allowed under the Acts from the standard fineness thereby prescribed, the amount of variation from standard fineness being plus nine ten-thousandth parts (+ 0.0009).

4. (a) We found that the cupro-nickel coins in the said pyx weighed in all more than 12 ounces troy and we took one or more coins from each packet of cupro-nickel coins.

(b) We weighed each 12 ounces troy (at standard weight) of cupro-nickel coins so taken out and ascertained that the amount of its variation (if any) from standard weight was the amount recorded in respect thereof in the Schedule hereto, and that each 12 ounces troy was therefore within the variation from standard weight allowed under the Acts.

(c) We then assayed separately cupro-nickel coins weighing in all 12 ounces troy (at standard weight) comparing them with the copper trial plate and the nickel trial plate produced by the Board of Trade, and we found that the coins assayed were on the whole within the variation allowed under the Acts from the standard composition thereby prescribed, the amount of the only variation from standard composition being minus one tenth of one per centum (- 0.1 per cent.) of nickel.

(d) We weighed in bulk the residue of the coins remaining in the packets of cupro-nickel coins and we ascertained that they were on the whole within the variation from standard weight allowed under the Acts, being one ounce and six hundred and twenty-three thousandth parts of an ounce (+ 1.623) above standard weight.

Dated the 10th day of May 1963.

THE SCHEDULE

Two weighings of 12 ounces troy showed no variation from standard weight; seven such weighings showed variations of eleven, twelve, thirteen,
