

(d) The amendment of modification 41 relating to land at Hanham by the deletion of the southern part of the area extending to approximately 8 acres to leave it within the proposed Green Belt.

In approving in principle the major modifications the Minister considers that the proposed Green Belt as now drawn can be held firm because it has provided adequately for potential expansion of Bristol and its environs. It is re-emphasised that areas which have now been shown as white land instead of Green Belt are not necessarily intended for development. Only if an undisputed need is clearly established will permission for development be given and if such a need is not established in the future the land may be added to the Green Belt.

Notice is also given that before giving formal approval to the Bristol Green Belt the Minister intends to consider the under-mentioned additional proposal submitted to him by the County Council for the further modification of the boundary of the Green Belt:

Description of Site

Land lying on the outer edge of the proposed Green Belt between the London-Cardiff Railway line and the Codrington Class III road (Folly Lane), Yate.

Details of Modification

Exclude from the Green Belt and show white.

Reason for Modification

It is considered that this area should remain unallocated to allow for the balanced long-term development of Yate.

A map showing the area of the Green Belt as approved in principle and the additional area proposed to be excluded from the Green Belt has been deposited for public inspection at the places mentioned below, together with the Inspectors' reports of the local inquiries held in 1961 and 1964.

It is emphasised that this proposed additional modification is the only matter to which objection may now be made.

Dated this 29th day of April 1965.
