6th July 1965.

MINES AND QUARRIES ACT 1954

Draft Coal and Other Mines (Mechanics and Electricians) Regulations 1965

The Minister of Power, in accordance with the provisions of section 142 of, and Part I of the Second Schedule to, the Mines and Quarries Act 1954, hereby gives notice that he proposes to make General Regulations under sections 141 and 143 of the Act, entitled the Coal and Other Mines (Mechanics and Electricians) Regulations 1965.

These regulations will replace, with amendments, the Coal and Other Mines (Mechanics and Electricians) Regulations 1956, the Coal and Other Mines (Mechanics and Electricians) (Variation) Regulations 1958 and the Coal and Other Mines (Mechanics and Electricians) (Variation) Regulations 1961; they will apply to mines of coal, stratified ironstone, shale and fireclay and will relate to the appointment, duties and qualifications of mechanics and electricians at such mines.

Regulation 5 deals with the appointment of a mechanical engineer or mechanic in charge, supervisory mechanics, and craftsmen mechanics who are together known as the mechanical engineering staff, and regulation 6 makes the like provisions for electrical engineering staff. These two regulations, together with regulation 7, also provide for a supervisory mechanic or supervisory electrician to be in charge at certain larger mines, in the absence of the mechanical engineer or mechanic in charge or the electrical engineer or electrician in charge, when certain mechanical or electrical apparatus respectively is in use.

Regulations 9 to 14 deal with the duties of mechanical and electrical engineering staffs, require schemes for systematic maintenance and testing of mechanical and electrical apparatus to be in force, prohibit certain operations from being carried out otherwise than by, or under the supervision of, mechanics or electricians, and provide for the keeping of records of maintenance, tests, defects found and remedial action.

Regulation 15 prescribes qualifications for mechanical engineers or mechanics in charge, and electrical engineers or electricians in charge at mines of certain classes, and regulations 16 and 17 prescribe qualifications for supervisory mechanics and supervisory electricians at mines of coal, shale and fireclay. Regulation 18 excepts certain small mines from these requirements and gives inspectors a power to grant exemptions.

Copies of the draft Regulations may be purchased (price 1s. 3d. net from Her Majesty's Stationery Office) at any of the addresses shown on the last page of this Gazette.

Any objection to the draft Regulations, by, or on behalf of, any person affected thereby must be sent to the Minister of Power, Thames House South, Millbank, London S.W.1, before 28th July 1965. Each such objection must be made in writing and must state:

- (a) the specific grounds of objection; and
- (b) the omissions, additions or modifications asked for.

Alfred M. Rake, An Under Secretary to the Ministry of Power.
