Venice, November 18. N. S.

**O**N the 13th Instant Signior Francisco Grimani was chosen Ambassador from this Republick to Constantinople; and his Office of Proveditor of the Marine is conferr'd on Signior Delphino, who is at present Ambassador to the Imperial Court. Several Abuses, with Regard to Quality and Rank, having lately crept into this State, Care is taken to regulate all Confusions of that nature, and to range the several Members of the Republick under their proper Distinctions. Among other Methods which are now under Consideration, it hath been order'd, That no Persons whatsoever, who are not of Noble Families, shall presume to; wear the Bayonet or Sword, on Pain of being sent to the Gallies. Letters from Naples advise, That a Tartan was come in there from Barcelona, with a Commission for Count Thau, by which he is appointed Viceroy of that Kingdom till the Arrival of the Empress Dowager. These Letters add, That Count Martinitz left Vienna on the first of this Month, in order to return to the Court of Vienna; and that Monsieur Yvonne, General of the Imperial Horse, is dead of the Wounds he receiv'd at the taking of Gaeta. Count Thau continues all Persons in their Employments who were prefer'd by his Predecessor; but suppress'd an invidious Tribunal which was order'd to enquire into disaffected Persons, the Sentences of that Court having been found by Experience to create Jealousies and Animosities against the Government, rather than to have given any Security. They write from Rome, That Count Martiniz arriv'd there on the 10th Instant, and, being accompany'd by Cardinal Grimani, and other Persons of Quality, was very magnificently entertain'd by the Constable Colonna. The Duke of Turfus is arriv'd there from Genoa, and hath had frequent Conferences with the Duke d'Uzeda, Ambassador from Madrid. The Gentleman who was sent to confer with the Ambassador of this Republick at Spolito, is banish'd by the Pope out of all his Dominions, under Pretence of his having exceeded his Instructions, and made an Offer of greater Condescension than the Court of Rome had directed. We hear, that the Prince of Taxis is restor'd to his Office of Postmaster-General of Spain, Naples and Sicily.

*Berlin, Nov. 26.* Count Bergami, Envoy Extraordinary from the Duke of Modena, had his Audience on the 16th Instant, according to the late regulated Ceremonial; in which he congratulated his Majesty on his Accession to the Crown, and made his Matter's Apology for not doing it sooner; by reason he hath been five Years out of the Possession of his Dominions. He complimented his Majesty at the same time upon the Marriage of the Prince Royal. Monsieur Kniphausen, who was sent some time since to compliment King Charles in Spain, is expected here very soon; as is likewise the Prince of Anhalt Dessau, who we hear is returning from Italy with all his Equipage. His Majesty, pursuant to a former Grant made to the Grand Chamberlain, of being Hereafter Stadtholder of all that his Majesty gains by Suc-

cession of the late K. William, as Prince of Orange, has now given him a particular Patent to act as such over his new acquir'd Principality of Neufchatel. On the 17th Monsieur Lintelo, Envoy Extraordinary of the States-General, deliver'd the King a Letter from their High-Mightinesses, desiring his Prussian Majesty not only to send his own Contingent early in the ensuing Year to the Imperial Army on the Rhine, but also to write pressing Letters to the Princes and States of the Empire, that they may follow his Majesty's Example. Lieutenant-General Finck is sent by the King to carry the News of the young Prince's Birth to the Court of Hanover. The Princess of Anhalt Dessau hath sent her Master of the Horse to compliment the King and the Prince Royal upon the Birth of the young Prince, whose Aunt she is. Lieutenant-General Nazemar hath obtain'd Leave for his Troop of Guards, which is now in Prussia, to serve next Year with him in Flanders; and hopes to have their Number augmented. We hear, that Colonel Gortz, who was particularly nam'd in the Treaty between the King of Sweden and King Augustus, and to whom the former had given a Regiment of Dragoons, consisting of 4000 Men, was put into Arrest by the King of Sweden's Orders. His Officers had preferred a Complaint against him for defrauding them of their Pay, which they said was the Occasion that most of the Regiment had deserted since they came into Poland. He dy'd the next Day after his Confinement. His Prussian Majesty and the Elector of Mayence are named to be Arbiters of the Succession to the Principality of Veldents, the first for the King of Sweden, and the latter for the Elector Palatine; and 'tis believ'd they will send their Deputies to adjust that Matter. They write from Posen of the 11th Instant, That 100 Waggons loaden with Bullets, Drums, and Muskets, were arriv'd on the 8th Instant from Srettin; and that the Chancellor of the Cathedral had obtain'd of King Stanislaus the Office of Crown-Referendary for Monsieur Prebendorf. Those Advices add, That the Turkish Ambassador, who was in Hungary, hath by an Express desir'd Leave to wait upon his Majesty; and that he was suddenly expected in the Camp. Letters from Lemberg of the 9th Instant say, That the Primate, and several other Polish Noblemen, with the Muscovite Resident, was in that City; and that the Crown Army was about Uladowo. On the last of October they celebrated in that Place the Anniversary of the Victory of Kalish with a *Te Deum*, and a triple Discharge of their small Arms. It is said, That the chief Ministers and Officers there live in perfect good Intelligence.

*Leipsick, Nov. 29.* His Excellency Count Wrattlaw arriv'd here on the 25th, and set out from hence yesterday for Dresden. The Saxon Horse that were canton'd in the Principality of Swartzburg, in the Duchies of Saxe-Weytemar, Saxe-Eysenach, and other neighbouring Countries, are upon their March towards these Parts, in order to take their Quarters in this Electorate. Two Companies of those Forces are already pass'd by this City. It is said, Two Regiments will be dispos'd in the Duchies of Saxe-Zeits and Saxe-Morseburg, to execute an Order of King Augustus, who has impos'd a gene-
