Great Ouse River Authority

Notice is hereby given that the Minister of Housing and Local Government in pursuance of his powers under paragraph 7 of Schedule 7 to the Water Resources Act 1963 (as that Schedule has effect by virtue of section 59 of that Act in relation to a charging scheme) has approved, subject to the alterations set out in the Schedule of Alterations attached below, the charging scheme submitted to him by the Great Ouse River Authority on 19th February 1968 under section 58 of the Water Resources Act 1963. The said scheme shall have effect on 1st April 1969.

Schedule of Alterations

In Paragraph 4 (c), delete the words from "in force for a period of less than nine months" to the end of the sub-paragraph (c) and substitute:

"operative for less than the whole of that year, the relevant quantity shall be taken to be the maximum quantity authorised by the licence for abstraction in the period for which the licence is operative within the financial year, or, if no such quantity is authorised by the licence, a quantity bearing the same proportion to the annual maximum quantity authorised by the licence as the number of days on which abstraction is permitted in the period for which the licence is operative within the financial year bears to the number of days on which abstraction is permitted in a full licence year.

If after the end of the financial year or the earlier termination of the licence it is shown that by reason of circumstances arising in the course of the year the charge finally due in that year differs from the charge as initially calculated (whether because the maximum quantity authorised by the licence for abstraction in that year differed from the maximum annual quantity indicated by the licence at the beginning of the year, or because the licence terminated or continued in force otherwise than as so indicated, or because the licence was varied in some other respect) the requisite adjustment in the amount of the charge for that year shall be made either by taking the difference between the charge as initially calculated and the charge found to be finally due into account in the calculation of the charge for the next, or a subsequent financial year, or in such other manner (including the payment of an appropriate sum) as may be suitable in the circumstances of the particular case."

In Paragraph 7, at the end of sub-paragraph (b) add:

"In any case where the relevant quantity is based on a period of less than a year for which the licence is operative within the financial year, only the months in which abstraction is permitted by the licence within that period shall be taken into account for the purpose of determining which rate (summer, winter, or all the year round) is applicable."

In Paragraph 8, in lines 3 and 4 delete "(i) power station cooling (direct or partly direct) (ii) mineral and raw vegetable washing" and substitute:

"(i) power station cooling, industrial cooling and mineral washing where the water is returned after use directly to the same or an adjoining source of supply unchanged or substantially unchanged in quality and quantity. (ii) raw vegetable washing".

In Paragraph 9, in line 4 delete the words from "provided that in the case of supplementary charges" to the end of the paragraph inclusive and substitute:

"The Authority may accept payment of charges by instalments on such terms as they consider appropriate subject to the first instalment being paid on the first day of May or the day on which the licence was granted, whichever is the later. In the case of supplementary charges payable under section 63 (2) (b) of the Act payment shall be made on the date in that year specified in the agreement made under the said section 63, or if no such date is specified, on the 1st November in that year."

In Schedules A and B:

(a) in each of the 2nd, 6th and 10th columns delete the headings "Power Station Cooling (direct

or partly direct" and substitute in each case the heading

"Power station cooling, industrial cooling and mineral washing where the water is returned after use directly to the same or an adjoining source of supply unchanged or substantially unchanged in quality and quantity".
