To the QUEEN's most Excellent Majesty.

The humble Address of the Juffices of the Prace, Grand Juries and Gentlemen at the General Quarter Sessions of the Peace held for the County of Glonesser the 4th of October, 1709, together with the Mayor, Aldermen and Grand Jury of the City of Gloucester.

VOU have United your Kingdoms, Established the Prote-I start Succession, and thereby strengthened the Protestant Interest: By the many repeated Victories obtained under your Generals, and particularly by that late glorious one near Mone, you have reduced the Exorbitant Power of France. We have nothing more to beg of you, nor to pray to Reaven for you, but that your Majesty may live long to Reign over us. to enjoy the Advantages and reap the Be-nefits of these immense Successes, which shall ever be the Frayers of your Majesty's most dutiful and obsdient Subjeës.

Which Address her Majelly received very graciously.

The Intendant of elfatia hath published an Order, strictly requiring the Pealants of that Province to carry all their Corn into the fortified Towns, except what is absolutely necessary for the Subfistence of th ir Families. This Order hath very much added to the Mifery of the Coople. All the Men that were made Prisoners by the Count du Bourg, have been fet at Liberty on their Parole, because there is such a Scarci y of Corn in those Parts, that they are under great Difficulties for the Subfistence of the Troops. They write from Basil, that the Count du Bourge, having reinforced the Garrison of Huninguen, was retired towards Brisac. The French have sequestred all the Revenues of the Inhabitants of that Canton in upper Alfitia and Suntgan, and have returned no other Answer to the Complaints made them on this Subject, than that his Christian Maieffy had need of them.
