EXPLANATORY NOTE

The road pattern outlined in the Draft Urban Plan, approved in principle by the Council in July 1967 envisaged a ring road around the centre area with loop roads to serve the main shopping areas and car parks. The first stage of the ring road—from Barrack Street to Grapes Hill—has been constructed and works on the second stage are expected to commence early in 1974. The northern loop road will follow St. Benedicts Street, Westwick Street and Duke Street and will be the first phase in the implementation of the Ring and Loop system. The traffic management measures outlined in the notice above are primarily intended to remove extraneous traffic from the St. Benedicts Street area; to channel parking traffic to the public car parks, so easing congestion in the central area and thereby creating an improved environment for pedestrians and to aid public transport by restricting the use of lengths of St. Benedicts Street to public service vehicles (and pedal cycles) only.

A copy of the proposed Order and a map showing the roads to which the proposed Order relates may be inspected at the office of the undersigned and at the offices of the City Engineer, Surveyor and Planning Office, Highways and Transportation Division, 3rd Floor, Baskerville House, Birmingham, during normal office hours.

Any person wishing to object to the proposed Order should write to the undersigned stating the grounds for objection by the 11th December 1973.—Dated 19th November 1973.
