

days, but a vehicle which has entered the car park whilst it is open may remain therein throughout a period during which the car park is closed provided that the vehicle does not remain in the car park for a continuous period exceeding 24 hours.

For the purpose of determining the charge to be paid for the use of the car park the Order provides for the division of each period of 24 hours into three charging intervals, namely between 8 a.m. and 6.30 p.m., between 6.30 p.m. and midnight and between midnight and 8 a.m. The charge in respect of the first interval will be computed at the rate of 10p for the first two hours or part thereof, plus 10p for each subsequent hour or part thereof. The charge for each of the second and third charging intervals will be 10p. The driver of a vehicle will have to pay a fee equal to the sum of the charges which have accrued due in respect of all the charging intervals during the whole or part of which his vehicle has remained in the multi-storey car park, but if a vehicle enters the car park after 10 p.m. and leaves before 9 a.m. on the following day only a fee of 10p will be payable.

The other conditions under which the multi-storey car park may be used are specified in the Order which, together with a plan showing the location of the car park, may be seen at my office during usual office hours.

If you wish to question the validity of the Order, which will come into effect on the 3rd December 1973, or of any provision in it, on the ground that it is not within the powers conferred by the Road Traffic Regulation Act 1967, or on the ground that any requirement of that Act, or of any instrument made under it, has not been complied with in relation to the Order, you may, within six weeks from today, apply to the High Court.

R. Howell, Town Clerk.

Guildhall,
York.

22nd November 1973.
