The following notice is in substitution for that which appeared on pages 9556 and 9557 of the London Gazette dated 22nd July 1977:

**WATER RESOURCES ACT 1963 WATER ACT 1973
NOTICE OF PROPOSALS FOR VARIATION OF
LICENCE AND ABSTRACTION LICENCE**

Notice is hereby given that the Welsh National Water Development Authority have formulated proposals for:

- (a) a variation of Licence No. 19/55/1/7 for abstraction from the Rivers Elan and Claerwen and at the Caban Coch Dam (Elan Valley Reservoirs abstraction licence); and
- (b) a licence to authorise abstraction from the River Wye at National Grid Reference point S.O. 517131 (Monmouth abstraction licence).

The existing Elan Valley Reservoirs abstraction licence authorises abstraction at a minimum daily rate of 85 million gallons per day (31,110 million gallons in any year) subject to:

- (i) the continuous discharge of compensation water at a rate of 26 million gallons per day, subject as provided at paragraph (iii) below;
- (ii) the discharge of compensation water at a rate of up to 42 million gallons per day when required for the purpose of permitting abstraction from the River Wye at Lydbrook (National Grid Reference point S.O. 602176) of 6 million gallons per day and providing a minimum flow in the River Wye at Redbrook Gauging Station (National Grid reference point S.O. 528110) of 133 million gallons per day, subject to the proviso that the total amount of compensation water in any calendar year shall not exceed 10,590 million gallons; and
- (iii) when required the reduction of the rate of continuous discharge of compensation water by 5 million gallons per day, the accumulation of the said 5 million gallons per day for up to 21 days and the discharge of the quantity so accumulated during a period of 48 hours.

The existing Licence No. 19/55/18/375 for abstraction at Lydbrook authorises abstraction at a maximum daily rate of 8 million gallons per day, and at a maximum hourly rate of 800,000 gallons per hour except when the flow in the River Wye at Redbrook Gauging Station is below 266 million gallons per day (including any additional discharge from the Elan Valley Reservoirs to support the said abstraction), when the hourly rate of abstraction is reduced to 200,000 gallons per hour in respect of a quantity of up to 2 million gallons per day and to 300,000 gallons per hour in respect of the remaining authorised abstraction per day.

The proposals for variation of the Elan Valley Reservoirs abstraction licence provide for:

- (a) a reduction of the authorised abstraction from 31,110 million gallons in any year to 29,280 million gallons in any year (equivalent to an average rate of abstraction of 80 million gallons per day), subject to abstraction at a maximum rate of 85 million gallons per day, with provision for reduction of the daily rate of abstraction to 70 million gallons per day when the quantity of water in store in the Elan Valley Reservoirs at any of certain specified dates in a year is less than a quantity specified for that date;

(b) a reduction of the rate of the continuous discharge of compensation water from 26 million gallons per day to 15 million gallons per day, with provision for the discharge of additional compensation water from time to time at a rate exceeding 15 million gallons per day by the amount by which the flow of the River Wye at the said Redbrook Gauging Station is less than 266 million gallons per day, subject to a maximum rate of discharge of such compensation water of 51 million gallons per day or, when the quantity of water in store in the Elan Valley Reservoirs at any of the specified dates in a year is less than the quantity specified for that date, 45 million gallons per day, and subject to paragraph (c) below;

- (c) the retention of the provision specified in paragraph (iii) above for reduction of the rate of the continuous discharge of compensation water by 5 million gallons per day, the accumulation of the said 5 million gallons per day for up to 21 days and the discharge of the quantity so accumulated during a period of 48 hours;
- (d) the reservation of an additional quantity of up to 400 million gallons in the Elan Valley Reservoirs when those reservoirs are full, subject to a maximum of 400 million gallons in each calendar year, and discharge from this water in store as required for the provision of freshets and for river management purposes.

The intended Monmouth abstraction licence provides for abstraction at a maximum daily rate of 30 million gallons per day (10,980 million gallons in any year) subject, if at any time the flow of the River Wye at the said Redbrook Gauging Station is less than 266 million gallons per day, to reduction, when the quantity of water in store in the Elan Valley Reservoirs at any of the specified dates in a year is less than the quantity specified for that date, to a maximum daily rate of 24 million gallons per day or the aggregate of that daily rate and the amount by which the rate of abstraction at Lydbrook as aforesaid is less than 8 million gallons per day.

The proposals are made to vary the conditions for abstraction, and the discharge of compensation water, from the Elan Valley Reservoirs to permit abstraction at Monmouth to augment water supplies in South East Wales while safeguarding river interests.

Details of the proposals, including drafts of the proposed variation of the Elan Valley Reservoirs abstraction licence and the proposed Monmouth abstraction licence, and copies of the relevant maps, may be inspected free of charge at the offices of the Wye River Division of the Authority at 4 St. John Street, Hereford, at the Elan Estates Office of the Authority at Elan Valley, Rhayader, Powys, at the Northern Area Office of the Wye River Division of the Authority at Strand Hall, Builth Wells, Powys, and at the Monmouth Depot of the Authority at Mayhill, Monmouth, Gwent, at all reasonable hours during the period beginning on 22nd July 1977, and ending on 19th August 1977.

Any person who wishes to make representations about the proposals should do so in writing to the Manager, Wye River Division, 4 St. John Street, Hereford, HR1 2NE, before the end of the said period.

After the expiry of the above-mentioned period the Authority will be entitled to pass a resolution by virtue of which the Elan Valley Reservoirs abstraction licence shall be deemed to be varied and the Monmouth abstraction licence shall be deemed to be granted in accordance with the proposals unless the Secretary of State for Wales or the Secretary of State for the Environment, whether in consequence of any representations made about the proposals or otherwise, requires applications to be made to him.

F. Jobson, Manager, Wye River Division, Welsh National Water Development Authority, 4 St. John Street, Hereford, HR1 2NE.

Dated 21st July 1977.

Notice is hereby given that the Westminster City Council, as local planning authority, has extended the Belgravia and Westminster Cathedral Conservation Areas under section 277 of the Town and Country Planning Act 1971.

The object of such designation is to preserve the character or appearance of areas of special architectural or historic interest, as distinct from individual buildings, to control development in such areas and to stimulate and encourage measures to improve the environment.

The new areas designated are described in the Schedule hereto.

Plans showing the areas are available for public inspection at the offices of the Director of Architecture and Planning, Room 10.08 Westminster City Hall, Victoria Street, London S.W.1, during normal office hours.

The effect of section 277A of the Town and Country Planning Act 1971 is that anyone wishing to demolish a building within a Conservation Area must first apply for listed building consent to the local planning authority. Such an application may be made separately or as part of an application for planning permission for the redevelopment of the site, but consent to demolish shall not be taken to have been given as part of planning permission for redevelopment unless specifically stated. In assessing whether or not consent should be granted, planning authorities will take account of the importance of the building to the character or appearance of any part of the Conservation Area.
