2. *High Street*

(a) north side.

(i) outside Nos. 104 and 105 High Street.

(ii) a short extension southwards of the existing prohibition to a point 3 metres south of its junction with the south side of Highbury Street.

**C. Prohibition of Waiting, Monday to Friday, 8 a.m. to 6 p.m.***Penny Street*

(b) south side, from a point 11 yards west of its junction with Peacock Lane in a south-westerly direction for a distance of 28 yards.

**D. Reasons for the Order**

The introduction of one-way traffic and its associated parking restrictions (on the north side) in Peacock Lane between High Street and Penny Street will reduce congestion at its junction with Penny Street by reducing the direction of movements and provide traffic with a clear path along Peacock Lane itself.

In Penny Street it is proposed that general parking should be prohibited during the working day adjacent to the warehouse on the south side to give extra clearance for large vehicles turning into and out of the warehouse.

In High Street at its junction with Peacock Lane prohibition of parking on the south-east side will increase the visibility of traffic turning out of Peacock Lane and on the north-west side will provide extra clearance for traffic turning right out of Peacock Lane.

The extension of parking prohibition on the north-west side of High Street, north of Lombard Street, will provide greater visibility to the north for traffic turning out of Lombard Street.

**Inspection of Plan and Draft Order**

Full details of the above proposals are in the draft Order which, together with a plan and a statement of the Council's reasons for proposing to make the Order, may be examined at:

the period up to 31st December 1980, in part or in whole, by transfer to General Business Profit and Loss Account with the object of satisfying the Solvency Margin arising under The Insurance Companies (Solvency: General Business) Regulations 1977. It is envisaged that if a partial transfer is effected the transfers from the Ordinary and Industrial Branches would be in similar proportion to the respective Branch's share of the total surplus to be transferred as at 31st December 1977.

The whole of the Society's General Business is reinsured with the Norwich Union Fire Insurance Society Limited and under current regulations a Solvency Margin of only £50,000 is required. Under the above Regulations the General Business Solvency Margin will be substantially increased with effect from 31st July 1978, and the sole objective of the proposed measure is to ensure that the Society is in a position to continue to meet the new Solvency Margin.

The Directors of the Society recognise that the participating life policyholders will have expected to share the whole of the distributable surplus arising in the respective Life Branch. However, because of the benefits which life policyholders derive from the reduced share of overheads resulting from the transaction of General Business, the Board feel justified in recommending the use of a small proportion of this surplus (not exceeding 1½ per cent. of the surplus arising during the past three years) to provide the additional resources which may be needed to continue the Society's General Business in the new situation.

For and on behalf of The Royal London Mutual Insurance Society Limited.
