NORTH WEST WATER AUTHORITY

DROUGHT ACT 1976

Temporary Use of Pumps to Abstract Water (Including Compensation Water) from Ennerdale

Notice is hereby given that the North West Water Authority has applied to the Secretary of State for the Environment for an Order under section 1 of the Drought Act 1976 to authorise the temporary (i.e. until the 1st December 1980) use of pumps to abstract the compensation water and also water required for supply from Ennerdale Water.

The reason for this application is that the Authority's present Licence Serial No. 27/74C/3/S/8 only authorises the abstraction from Ennerdale Water of water required for supply and for compensation water by gravity. In order therefore to maintain abstraction of water from the Lake for water supply and compensation water purposes, if the Lake level continues to fall, the Authority will have to resort to pumping.

There is no intention at the present time to seek authority to reduce the present compensation water flow of 32 Ml/d.

Any objections to the proposed Order must be made in writing to the Secretary of State for the Environment, Room C6/19, 2 Marsham Street, London S.W.1, within 7 days of publication of this notice, and it is requested that a copy of any such objection be sent at the same time to the undersigned.

J. G. Lloyd, Chief Executive, North West Water (558) Authority, Dawson House, Gt. Sankey, Warrington.

NORTH WEST WATER AUTHORITY

DROUGHT ACT 1976

Proposed Reduction of Residual Flow in the River Duddon

Notice is hereby given that the North West Water Authority have applied to the Secretary of State for an Order under section 1 of the Drought Act 1976 to vary for a maximum period ending on 1st December 1980, the limitations to which their abstraction of water from the River Duddon is presently subject as follows:

At the present time the Authority are licensed to abstract 25,000 gallons per hour, 6 million gallons per day and 2,196 million gallons per year from the River Duddon near Ulpha. This abstraction is however subject to conditions requiring the Authority to make certain releases of water from Seathwaite Tarn into the River Duddon and to maintain certain minimum flows in the river. Details of these conditions relating to the releases from Seathwaite Tarn and the minimum flows in the River Duddon are set out in the schedule below.

This application is to temporarily suspend these conditions and to replace them by one condition requiring the Authority to maintain a continuous flow of 3.25 million gallons per day in the River Duddon measured at the flow measuring station at Duddon Hall and not at their intake as at present.

Any objection to the proposed Order must be made in writing to the Secretary of State for the Environment, Room C6/19, 2 Marsham Street, London S.W.1, within seven days of publication of this notice and it is requested that a copy of any such objection be sent at the same time to the undersigned.

A map showing the location of the abstraction point and gauging weirs may be inspected during normal office hours for a period of seven days from the publication of this notice at the Authority's offices at Hindpool Road, Barrow-in-Furness, LA14 2NG.
