AST Week Signior Nani proposed to the Senate, that all those that owe Mony to the State shall be deprived of the Privilege of Ballotting in the Great Council; and accordingly on Saturday last the Names of all such as are indebted to the Publick were read in the Senate, nation in Signior Nani's Proposition passed. It was ob-fired that the Names of most of the great Famiis in this City were on the List, for which rules no great Council was held as usual on Sundy, the Number of those who had a Right to Balbitting very inconsiderable. We are advised fromRome, that a Courier was arrived there from Vienta, with Dispatches for that Court, and that firehis Arrival the Pope talk'd of fending a Let-gica Latere to affift at the Election of a new Emperor; and it is thought Cardinal Imperiali will be the Person appointed to that Employment. The Preak Galley is arrived here from Bristol, bring taken a French Vessel in her Passage loaden with Corn. They write from Florence, that the Diputes between the Dukes of Parma and Modena are referred to the Arb tration of the Pope and the Great Duke of Tuscany. The Fleet under the Command of Sir John Norris, which failed from Vado the 15th of the last Month, arrived in seven Days after at Barcelona, having loft three small Barks in their Passage, two of which were sunk at Sta, and the other was forced by stress of Weather to put into Marseilles.

From the Camp at Lens, June 22. N. S. On Friday the 19th About one in the Morning a Deuchment of the Enginy's Grenadiers, sustained by four hundred Hussars, agreempted to surprize a Post we had taken at the Convent of Vimy, to secure the Front of our Camp, and cover our Grand Guids on the Hills near Arras: We had in this Polithree hundred Men commanded by Lieutenant-Colonel Cholmeley of the Guards, who received the Enemy to warmly, that tho they came on with. great show of Bravery and Resolution, they retreated upon our first Fire; they wounded us only Man, and had their Captain of Grenadiers, and his Day the first Line of our Army were ordered m Marchout of their Camp, and post themselves in order of Battel on the Ground marked out for that purpole; and his Grace the Duke of Mariborough took this opportunity to entertain the Duke of Mecklenbourg, with a light of those Troops; his Highness express'd great Satisfaction in the fine appearance they made, and after the Review the Proops returned to their Camp. To morrow the second Line are to draw out in like manner. We have advice, that the Detachment the Enemy give out they are making for Germany, is still on this side the Maes near Givet; and that they have a Corps of thirty five Squadrons and ten Battalions encamped near Maubeuge, to observe the Motions of the Prince of Savoy's Troops.

From the Camp at Lens, June 25. N. S. On Monday the 22d Infant in the Evening a hundred of our Dragoons, with as many Hustars, advanced almost to the Banks of the Scarpe over against the Left of the Enemy's Camp, where they have laid fome Bridges over that River for the Passage of their l'atrolles; the Major who Commanded our Troups possed the greatest part of them at some distance from the River, and sent forwards a small Detachment to flow themselves to the Enemy, who immediately took the Alarm, and three hundred of their Hussars pursued our Men in their Restreat to their main Body, who charged the Engry with so much vigour, that they killed forty of them, took two Captains, a Cornet and seventeen Prisoners; but the Night coming on, the rest found means to make their Escape. Yellerday and this Day our Army made a general Forage on the Plains between Lens and Bethune, with an Escorte of three thousand Foot and twelve hundred Horse, and the whole is returned to the Camp, having met with no opposition from the Enemy. We have advice, that the Enemy's Detachment for Germany passed the Maes the 23d at Givet. The Prince of Savoy had given Orders for his Troops to halt near Brussels, but it is not doubted but upon the March of the Enemy they will have Orders to continue their Rout.

Hague, June 26. N. S. The Prince of Savoy has every Day unte his arrival been in Conference with the Deputies of the States and Foreign Miniflers. He went on the 21st to wait on the King of Profile, and dired with his Majeily at Honfleerdyck. He has not yet lixed any time for his Departure, but waits for his final Orders from Vienna. The Detachment made from the French Army for Germany having halted for fome Days at Givet, and been joined by a Reinforcement confifting of twelve Squadrons, proceeded on the 23d towards St. Hubert, and as the French give out, is still to be reinforced by the Bavarians, and fome other Troops drawn out of Luxembourg, and other Places on the Frontiers; whereupon the Imperial and Falatin Forces that have remain'd 'till now in the Neighbourhood of Bruffels, have been ordered to continue their March, and it is thought the Prince of Savoy will join em at Coblentz. Our Letters from Paris advise, that the Duke of Anjour has granted to the late Elector of Bavaria the Sovereignty of Luxembourg, Namur, Charleroy and Newport, with all their feveral Dependencies. These Letters add, that the Duke de Noailles was upon his return from Spain, where the French are in no Condition to engage in any confiderable Enterprize. The French King has refused to receive a Letter which the Pope's Nuncio had orders to present him in the Name of the Empress Regent, notifying the Death of the late Emperor, because he understood that in that Letter she stiled her Son Charles King of Spain; for the same Reafon he has resolved not to go into Mourning on that Occasion. The Earl of Peterborough's Aid de that Occasion. Camparrived here the 24th in the Evening, and

proceeded from herce to the Brill in his way for England; and our Letters of the 23d from Hanover advite, that his Lordinip was arrived there, and projected to fer out from thence the next Day for this Place.

Cheffer, Fase 19. His Grace the Duke of Ormond, Lord-Lieurenanz of Ireland, having left London the 14th Inflant, arrived here yellerday about one a-Clock, and was mat near the City by the Deputy-Governor of the Caile, and a great number of the principal Gentlemen of this City and Country. At his entrance into the City the Guns from the Cassle fired, the Mayor, Recorder and Aldermen attending his Grace's coming upon a Scaffold ereded for that purpose, where he was complimented by the Recorder in the Name of the Corporation in a very eloquent Speech. The feversi Companies of Citizens, with their Banners, attending in the Street with all imaginable De-monfirstions of Respect. He alighted at Sir Henry Bunbury's, where the Dean, attended by all the Body of the Clergy, came to welcome his Grace. Soon after he was invited by the Mayor and Corporation to the Pent-house, where a very noble Collation was prepared, accompanied by the Bilhop of Cheffer, and feveral other Persons or Diffinction. His Grace is gone this Day to Park-gate, the Place of Imbarkation, to attend the new opportunity of a fair Wird.
