The Lords Commissioners of Her Majesty's Treasury hereby give notice that, at a Trial of the Pyx begun at Goldsmiths' Hall in the City of London on the 25th day of February 1982 and concluded on the 7th day of May the following verdict of the Pyx Jury was delivered to the Queen's Remembrancer, viz.:

1982

TRIAL OF THE PYX

VERDICT

1. We, the undersigned, were duly sworn on the 25th February 1982 before the Queen's Remembrancer at Goldsmiths' Hall in the City of London to assay gold, silver Maundy, silver and cupro-nickel coins of Her Majesty, which were produced to us by officers of the Royal Mint. Accounts of the Deputy Master and Controller of the Royal Mint were similarly produced to us and showed that the coins had been made by the Royal Mint between the 1st January 1981 and the 31st December 1981 inclusive in accordance with the Coinage Act 1971, a Proclamation made on the 20th December 1968 relating to coins of fifty new pence and a Proclamation made on the 10th June 1981 relating to coins of twenty-five new

pence. Those accounts also showed that the coins had been set aside for the Trial of the Pyx as prescribed by the Trial of the Pyx Order 1975 and the Trial of the Pyx (Amendment) Order 1980.

2. In this verdict any reference to the permitted variation from standard weight, fineness, composition or diameter is to such variation from the standard weight, fineness, composition or diameter as is allowed by the Coinage Act 1971 and the Proclamations made on the 20th December 1968 and the 10th June 1981.

3. We ascertained the number of coins in each packet produced to us and that it corresponded with the number which the officers of the Royal Mint represented the packet to contain.

4. Gold coins

(a) We took out from each of the one hundred and eleven packets of gold coins one coin.

(b) We weighed in bulk the coins taken out and ascertained that they were on the whole within the permitted variation from standard weight, the amount of the variation being point three four (+0.34) of a gram above standard weight.

(c) After weighing those coins, we melted them into an ingot and assayed it, comparing it with the standard trial plate of gold produced to us by an officer of the Department of Trade, and we found that the ingot was within the permitted variation from standard fineness, the amount of the variation being point two two (-0.22) parts per thousand below standard fineness.

(d) We weighed in bulk the residue of the coins remaining in the packets of gold coins and ascertained that they were on the whole within the permitted variation from standard weight, the amount of the variation being five point three nought (-5.30) grams below standard weight.

(e) Finally we took out from the residue four of each of the coins of five pounds and two pounds, six sovereigns and three half-sovereigns and weighed and assayed them separately. We found that each of the coins so weighed was within the permitted variation from standard weight, the amounts of the variations being as follows:

for the coins of five pounds: point nought three nought nought (+0.0300), point nought three two nought (+0.0320) and point nought three six eight (+0.0368) of a gram above and point nought nought two seven (-0.0027) of a gram below standard weight;

for the coins of two pounds: point nought nought four nine (+0.0049), point nought nought five three (+0.0053) and point nought one two three (+0.0123) of a gram above and point nought nought two nought (-0.0020) of a gram below standard weight;

for the sovereigns: point nought nought nought nine (+0.0009), point nought nought two eight (+0.0028) and point nought nought three two (+0.0032) of a gram above and point nought nought three two (-0.0032), point nought nought three six (-0.0036) and point nought nought seven five (-0.0075) of a gram below standard weight and

for the half-sovereigns: point nought nought two six (-0.0026), point nought nought three nought (-0.0030) and point nought nought three five (-0.0035) of a gram below standard weight.

We also found that each of the coins so assayed was within the permitted variation from standard fineness, the amounts of the variations being as follows:

for the coins of five pounds: point nought four (+0.04) and point one eight (+0.18) parts per thousand above and point one nought (-0.10) and point one seven (-0.17) parts per thousand below standard fineness;

for the coins of two pounds: point one six (+0.16), point one eight (+0.18), point one nine (+0.19) and point two seven (+0.27) parts per thousand above standard fineness;

for the sovereigns: point two three (+0.23), point two four (+0.24), point two five (+0.25), point two six (+0.26), point three four (+0.34) and point three seven (+0.37) and parts per thousand above standard fineness and

for the half-sovereigns: point one nine (+0.19), point one nine (+0.19) and point two two (+0.22) parts per thousand above standard fineness.

5. Silver Maundy coins

(a) We weighed in bulk all the silver Maundy coins produced to us and ascertained that they were on the whole within the permitted variation from standard weight, the amount of the variation being point nought four (+0.04) of a gram above standard weight.

(b) We then assayed all the Silver Maundy coins, comparing them with the standard trial plate of silver produced to us by an officer of the Department of Trade, and we found that they were on the whole within the permitted variation from standard fineness, the amount of the variation being one point four (+1.4) parts per thousand above standard fineness.

6. Silver coins other than Maundy coins

(a) We ascertained that the silver coins of twenty-five new pence weighed more than one kilogram.

(b) From each packet of silver coins of twenty-five new pence, we took out sufficient coins and grouped them into one lot weighing nine hundred and ninety point three grams and found that they were on the whole within the permitted variation from standard weight, the amount of the variation being point six (+0.6) of a gram above standard weight.

(c) We then weighed in bulk the residue of the coins remaining in the packets and ascertained that they were on the whole within the permitted variation from standard weight, the amount of the variation being point two (-0.2) of a gram below standard weight.

(d) Finally, we assayed coins not weighing less in all than five hundred grams, comparing them with the same standard trial plate of silver, and ascertained that they were on the whole within the permitted variation from standard fineness, the amount of the variation being two point one (+2.1) parts per thousand above standard fineness.

7. Cupro-nickel coins

(a) We ascertained that the cupro-nickel coins of each of the denominations of fifty, twenty-five, ten and five new pence contained in the packets weighed more than one kilogram.

(b) From each packet of coins of fifty, twenty-five, ten and five new pence, we took out sufficient coins and grouped them into fourteen lots so that each lot comprised coins of the same denomination and weighed not less than nine hundred and eighty grams nor more than one kilogram.

(c) We then weighed each of those lots in bulk and found that it was on the whole within the permitted

variation from standard weight, the amounts of the only variations being as follows:

for four lots of coins of fifty new pence:	point one (+0.1), point three (+0.3), one point one (+1.1), and two point one (+2.1) grams above standard weight;
for seven lots of coins of twenty-five new pence:	one point four (+1.4) and two point five (+2.5) grams above and point four (-0.4) point four (-0.4) one point four (-1.4) and one point four (-1.4) grams below standard weight;
for two lots of coins of ten new pence:	one point eight (+1.9) and two point four (+2.4) grams above standard weight and
for one lot of coins of five new pence:	point eight (+0.8) of a gram above standard weight.

(d) We weighed in bulk the residue of the coins remaining in the packets and ascertained that they were on the whole within the permitted variation from standard weight, the amount of the variation being three hundred and ninety-two point four (+392.4) grams above standard weight.

(e) We then assayed coins not weighing less in all than five hundred grams, comparing them with the standard trial plates of copper and nickel produced to us by an officer of the Department of Trade, and we ascertained that the coins were on the whole within the permitted variations from standard composition, the amounts of the only variations being for the coins of fifty new pence minus point two (-0.28) per centum of copper and for the coins of twenty-five, ten and five new pence minus point two (-0.2) per centum of copper.

(f) The numbers of coins of each denomination contained in the packets being more than ten, we measured the diameters of twenty of each of the coins of fifty, twenty-five, ten and five new pence and ascertained that the average diameter of the coins of each denomination was within the permitted variation from standard diameter, the amounts of the variations being for the coins of both fifty and ten new pence point nought one (-0.01), for the coins of twenty-five new pence point nought five (-0.05) and for the coins of five new pence point nought four (-0.04) of a millimetre below standard diameter.

(11 SI) Mrs. P. J. Carter, a Senior Executive Officer

The London-Bristol Trunk Road (A4) (Batheaston, Avon) (Prohibition of Waiting) Order 1982

Notice is hereby given that the Secretary of State for Transport proposes to make an Order under sections 1 (1)-(3) and 84D of the Road Traffic Regulation Act 1967, as amended by Part IX of the Transport Act 1968 and Schedule 6 to the Road Traffic Act 1974 on the London-Bristol Trunk Road (A4) at Batheaston in the County of Avon.

The Order is intended to improve vehicular and pedestrian safety on the approaches to and at the junction of that part of the Trunk Road, known locally as London Road East, with Stambidge—Five Ways Junction—and is complementary to the improvement of part of the Trunk Road and the provision of a "pelican" controlled pedestrian crossing at a point a short distance to the north-west of the Five Ways Junction.

The effect of the Order will be to prohibit any person from causing or permitting any vehicle to wait:

- (a) on the north-eastern side of London Road East between a point 100 yards west of the north-western side of its junction with Stambidge to a point 80 yards south-east of the south-eastern side of its junction with Stambidge.

(b) on the south-western side of London Road East between a point 84 yards west of the north-western side of its junction with Stambidge to a point 120 yards south-east of the south-eastern side of its junction with Stambidge. This prohibition will not apply to express motor coaches (express carriages).

This proposal means that the existing prohibition of waiting between 0800 and 1900 hours Monday to Saturday on the south side of High Street will be reduced by 14 metres. This length of road which includes the bus bay will be subject to a no waiting at any time restriction.

Exceptions have been provided in the Order to enable a vehicle to wait for so long as may be necessary for a person to board or alight from the vehicle, to enable goods to be loaded on to or unloaded from, the vehicle, or to enable the vehicle to be used in connection with any building operation or demolition, the removal of any obstruction to traffic, the maintenance of the road or the services therein, or for police, fire brigade or ambulance purposes.

Exceptions will also be provided in the Order for vehicles waiting on the direction of a police constable in uniform or of a traffic warden, and also for disabled persons badgeholders.

A copy of the proposed draft Order, together with a plan illustrating the proposal and a statement explaining the Secretary of State's reasons for proposing to make the Order and a copy of the existing Order to be varied may be inspected at:

- (i) The Offices of Avon County Council, Department of Legal and Administrative Services, Avon House, The Haymarket, Bristol, Avon ;
- (ii) The Offices of Bath City Council, Guildhall, Bath, Avon ; or
- (iii) Batheaston Post Office, High Street, Batheaston, Avon.

Any person who wishes to object to the draft Order, should send to the Director (Transport), at the address below, a written statement of the grounds of objection, quoting the reference DSW 504141/5/T/09, by 15th June 1982.
