*The Petroleum (Production) (Landward Area) Regulations
1984 (SI 1984 No 1832)*

The Secretary of State for Energy hereby gives notice that the arrangements for the grant of landward petroleum licences under the above Regulations will be as follows. Applications will be considered against the background of the continuing need to identify and develop landward oil and gas resources in the most expeditious, efficient and thorough manner and where applicants hold or have held licences their overall record will be taken into account

Applications for Exploration Licences

2 The Secretary of State is prepared to receive applications for exploration licences in respect of

- (a) any unlicensed landward area (as defined in Regulation 3 of the above Regulations), and
- (b) areas covered by exploration licences granted prior to the commencement of the above Regulations ("existing exploration licences") provided the applicant is the existing licensee or is a member of a consortium which includes at least one of the existing licensees

3 Applications shall be by reference to one or more contiguous blocks as shown on the inspection map at the Department of Energy, Room 1113, Thames House South, Millbank, London SW1P 4QJ. Boundaries of existing exploration licences do not necessarily coincide with the standard grid boundaries. In this notice blocks having one or more such boundaries are referred to as non-standard blocks. Where an applicant is applying for an exploration licence pursuant to this notice in relation to a non-standard block comprised in his existing exploration licence such application should include any contiguous non-standard unlicensed block provided the blocks concerned are comprised within standard grid boundaries. Applicants for areas referred to in paragraph 2 (b) above will be expected to have completed sufficiently detailed seismic surveys to identify potential drillable prospects. A list of the non-standard blocks is available and will be supplied with the application form (see paragraph 4 below)

4 The map may be inspected by prior appointment (telephone 01-211 6395) between 0915 and 1645 hours Monday to Friday from 1st July to 20th September 1985. Applications should be made on the standard application form available from the Department and delivered between 0930 and 1200 hours on Tuesday, 24th September 1985, and 0930 and 1200 hours on Wednesday, 25th September 1985, to the Department's Oil Division, at the above address. No application will be accepted outside these times and all applications should be accompanied by the fee calculated in accordance with Regulation 10 (1). Guidance notes on the material with which applicants may support the application and on its presentation are available from the Department at the above address

Applications for Appraisal Licences and Development Licences

5 An application for an appraisal or development licence may be made at any time, subject to the provisions of Regulation 7 of the above Regulations, and should be made on the standard application form. In accordance with Regulations 8 (4) and (7) of the above Regulations applications for a development licence should be accompanied by two copies of the work programme proposed by the applicant together with a copy of any planning permission which may be required before the work programme may be carried out

Conditions

6 Development licences will be granted on the basis that successful applicants will be required, on the day the licence is issued, to enter into an agreement under seal with the Secretary of State and the British National Oil Corporation (BNOC) which will enable BNOC, if the Secretary of State so decides thereafter to take at market price up to 51 per cent of the petroleum (other than natural gas) produced from the licensed area. The percentage will be calculated after taking into account any petroleum required to be delivered to the Secretary of State as royalty in kind. The agreement (excluding the Schedules referred to therein) will be in the form of the Appendix to this notice, and will provide that in specified circumstances the licensee will, if so requested by the Secretary of State

- (i) execute a deed of assignment assigning the licence to the licensee and BNOC jointly, and will
- (ii) enter into a further agreement containing specified provisions under which BNOC will take the petroleum. The text of the Schedules to the Agreement setting out these provisions is available on request from the Department of Energy

References in this paragraph and the appendix to BNOC shall be taken to refer to any body which succeeds to the functions of BNOC relating to majority State participation

7 In all cases where the Secretary of State favourably considers an application, a licence will be offered on condition that, within 14 working days of the date on which the Secretary of State makes the offer, the applicant

- (a) where the application is for an exploration licence or appraisal licence, confirms his acceptance of a work programme (if any) proposed by the Secretary of State following discussion with the applicant, and where the application is for a development licence, confirms his acceptance of any modifications to the programme submitted by the applicant under Regulation 8 (4) of

the above Regulations, which the Secretary of State may have proposed following discussions with the applicant,

- (b) remits to the Secretary of State the appropriate initial payment for the licence, and
 (c) where appropriate confirms in writing that he is prepared to enter into the agreement described in paragraph 6 above

8 Where the holder of an existing exploration licence for a landward area above the low water mark is successful in an application for an exploration licence under the above Regulations for the whole or part of the same area, the Secretary of State will be prepared to consider, without commitment, arrangements to effect a surrender of the relevant area comprised in the exploration licence so as to enable the new exploration licence to take immediate effect

9 Licences awarded for blocks below low-water line will be subject to special conditions arising out of environmental, navigational, fishery and conservation considerations

Consideration for Licences

10 The Secretary of State, with the consent of the Treasury, has determined that until further notice the consideration for exploration, appraisal and development licences under the above Regulations shall be as follows

- (a) Exploration licences upon the acceptance of the offer of a licence a non-recurrent fee shall be payable at the rate of £75 per square kilometre in the licensed area.

(b) Appraisal licences

(i) upon the acceptance of the offer of a licence a non-recurrent fee shall be payable at the rate of £75 per square kilometre,

(aa) The annual payment shall be increased or subsequently reduced, in line with movements in the Crude Oil Price Index (published in the Digest of the UK Energy Statistics), if the Minister, by notice given during the month preceding the third or any subsequent three-yearly anniversary of the date of commencement of the licence (up to and including the eighteenth anniversary), so determines and specifies the increase or reduction in the amount payable ("triennial determination")

(bb) Subject to paragraph (ee) below, the Minister may make a triennial determination specifying an increase in the amount payable if (but only if) the rise in the said Index since the date of commencement of the licence or the last triennial determination, as the case may be, has exceeded 10 per cent and, subject to sub-paragraph (dd) below, shall be obliged to make a triennial determination specifying a reduction in the amount payable if the fall in the Index since that date has exceeded 10 per cent

(cc) The increase or reduction specified in a triennial determination shall be payable or take effect on the anniversary of the date of commencement of the licence next following the date of the relevant triennial determination

(dd) No triennial determination shall have effect so as to reduce the annual payment below £1,500 per square kilometre

(ee) If the said Index falls to a level below that obtaining at the date of the commencement of the licence, no triennial determination may be made increasing the amount payable until the Index has risen to a point at least 10 per cent above its level at the date of commencement of the licence

(iii) A Royalty (as described in clauses 8 to 11 of Schedule 5 to the above Regulations) shall be payable at the rate of 12½ per cent
