BRITISH TELECOMMUNICATIONS

Wide Area Radio Paging Services

Notice published by the Director General of Telecommunications under section 12 of the Telecommunications Act 1984

Proposed modification of the licence granted to British Telecommunications to run telecommunication systems for the provision of radio paging and other land mobile radio services

- (1) The Director-General of Telecommunications ("the Director") hereby gives notice that he proposes, under section 12 of the Telecommunications Act 1984 ("the Act"), to modify the conditions in the licence granted under section 7 of the Act to British Telecommunications ("British Telecom") to run telecommunication services for the provision of radio paging and other land mobile radio services by the insertion of a new condition. This condition will require British Telecom to introduce separate billing for its Radio Paging Services and ancillary services (e.g. the supply and maintenance of pagers) so that customers of those services are invoiced separately for such services from any other services provided by British Telecom. British Telecom will be required to introduce such separate billing for some of its radio paging customers not later than 30th April 1986 and for the remainder of such customers as soon as reasonably practicable thereafter
- (2) The purpose of the modification is to remedy or prevent any adverse effects to British Telecom's competitors in the provision of radio paging services which could result from British Telecom's practice of including its charges for radio paging services in the same invoice as its other charges to a particular customer for other services provided to that customer by British Telecom
- (3) The Director is required by section 12 (2) of the Act to consider any representations or objections which are duly made and are not withdrawn
- (4) Any persons whose interests are likely to be affected by the modification, and who are desirous of making representations or objections in respect of it, should do so in writing to Mr A W G Catto, OFTEL, Atlantic House, Holborn Viaduct, London EC1N 2HQ (stating their interests and the grounds on which they wish to make representations or objections) before 7th October 1985. Copies of the proposed new condition may be obtained from OFTEL (721)
