Nature of goods or services exported
 Plastic film treating equipment.
 Aircraft.
 Aluminium pigments.
 Cashmere and lambswool knitwear.
 Ocean going yachts.
 Airfreight forwarders.
 Seamless steel tubes.
 Plastic products and stationery.
 Machine tools.
 Engineering ceramics and refractory goods.
 Servicing of gas turbine engine components.
 Scientific instruments.
 Scotch Whisky.
 Frozen white fish.
 Hot press stamping foils.
 Automotive filters.
 Electronic video composition equipment.
 Marine engineering and consultancy services.
 Building services engineers and contractors.
 Lead acid batteries.

THE QUEEN'S AWARD FOR TECHNOLOGICAL ACHIEVEMENT 1986

HER MAJESTY THE QUEEN has been graciously pleased to confer Her Award for Technological Achievement in 1986 upon the following industrial units:

The Beecham Pharmaceuticals Research Division of The Beecham Group PLC.
 Black and Decker.
 The Space and Communications Division of British Aerospace PLC.
 Brown and Root (UK) Ltd.
 Conoco (UK) Ltd.
 Cosworth Research and Development Ltd.
 Davy McKee (Poole) Ltd.
 The Space Department of the Royal Aircraft Establishment, Ministry of Defence.
 ECS Energy Conservation Systems Ltd.
 Information Technology Group Ltd.
 Link Systems Ltd.
 The Electric Actuator Group of Lucas Aerospace Ltd.
 Marconi Radar Systems Ltd.
 Bernard McCartney Ltd.
 The Metal Box Engineering, Research and Development Divisions of Metal Box PLC.
 The Institute of Oceanographic Sciences.
 Offshore Marine Engineering Ltd.
 Petrocon Gall Thomson Ltd.
 The Pilkington Space Technology Division of Pilkington PE Ltd.
 Polymer Laboratories Ltd.
 Ruston-Gas Turbines Ltd.
 Sarclad International Ltd.

Epsom, Surrey
 Spennymoor, Co. Durham
 Stevenage, Hertfordshire

 London W.1
 Worcester
 Poole, Dorset
 Farnborough, Hampshire
 Feltham, Middlesex
 Winchester, Hampshire
 High Wycombe, Buckinghamshire
 Bradford, West Yorkshire
 Chelmsford, Essex
 Stockport, Cheshire
 Crawley, Sussex
 Godalming, Surrey
 Walsall, West Midlands
 Great Yarmouth, Norfolk
 Rhyl, Clwyd
 Church Stretton, Shropshire
 Lincoln
 Chesterfield, Derbyshire

Nature of product or development
 Development of Beta-lactamase inhibitors for antibiotic therapy.
 Automatic assembly process for series wound motors.
 GIOTTO spacecraft.
 Detailed design services for the tension-leg oil production platform (jointly with Conoco (UK) Ltd. and The Design and Projects Division of Vickers PLC.)
 Tension-leg oil production platform (jointly with Brown and Root (UK) Ltd. and The Design and Projects Division of Vickers PLC.)
 Process for precision high integrity aluminium alloy castings.
 Automatic flatness control system for the production of metal strip and foil.
 Development of solar cell coverglasses (jointly with The Pilkington Space Technology Division of Pilkington PE Ltd.)
 Automatic lighting control systems.
 Fault tolerant super-microcomputer.
 X-ray energy-dispersive spectrometer.
 Electro-mechanical actuation systems for aerospace and defence applications.
 MARTELLO transportable long range surveillance radar systems.
 Compactor wheels and conversion kits.
 Development of the Spin Necker: drinks-can manufacturing machine.
 GLORIA—geological long range inclined asdic.
 Saturation diving system.
 Anti-pollution and safety breakaway couplings for offshore hose transfer systems.
 Development of solar cell cover-glasses (jointly with The Space Department of the Royal Aircraft Establishment, Ministry of Defence).
 Thermal analysers.
 TORNADO—industrial gas turbine.
 Rollscan automatic inspection system for mill rolls.
