WATER RESOURCES ACT

NORTH WEST WATER AUTHORITY

WATER RESOURCES ACT 1963

Notice of Proposals for Varying a Licence to Abstract Water from Ennerdale Water

Notice is hereby given that the North West Water Authority in pursuance of section 42 of the above Act, have formulated proposals for varying Licence Serial Number 27/74C/3.5/8 which authorises them to abstract water from Ennerdale Water at NGR NY 0887 1528 for water supply and for the discharge of compensation water into the River Ehen.

The present abstraction for water supply is made by way of an intake which adjoins the embankment at a location where the lake is shallow for a considerable distance from the shoreline. The location of the intake is unsatisfactory in that wave action stirs up fine material from the bed of the lake and wind action causes considerable quantities of debris to be drawn into the intake. In addition, after periods of dry weather, when the lake falls to about 1.35 metres below weir level, the flow through the intake can no longer be properly maintained. In order to keep supplies going, mobile diesel pumps have to be installed on the lake bed. Similar pumps have to be used even more frequently in dry weather to lift water from the lake to discharge the required compensation water to the River Ehen.

Such expedients are out of keeping with the operation of a major source of public water supply and are environmentally objectionable both as to appearance and noise in this sensitive and tranquil area.

The proposed variation will permit abstraction of the authorised quantities of water by way of a new intake tunnel under the bed of the lake extending about 300 metres from the shoreline. Compensation water will also be drawn through the new intake tunnel when the lake is below the level at which it can be discharged by gravity through the fish pass. In these circumstances the flow will be pumped back to the fish pass by means of a permanent pumping installation constructed as part of the new water treatment works.

The changes to the licence necessary to give effect to the proposals will be limited to the means by which water is abstracted, measured and recorded and to permit the compensation water to be pumped to the fish pass when the lake is below the level at which it can be discharged by gravity. There is no change in the quantities of water authorised to be abstracted. The Authority propose to include a new clause to require NWW to refrain from abstracting water from Ennerdale Water when the level falls below 110.61 metres OAD, being approximately 1.70 metres below the present crest of the dam.

A copy of the proposals and of any map, plan or other documents prepared in connection with them may be inspected free of charge, at Dawson House, Liverpool Road, Great Sankey, Warrington WA5 3LW, and at the Whitehaven Sub District Office of the Authority at the Hollins, Hensingham, Whitehaven, Cumbria CA28 8EY, at all reasonable hours during the period beginning on 4th December 1987, and ending on 3rd January 1988.

Any person who wishes to make representations about the proposals should do so in writing to the Secretary and Solicitor, North West Water Authority, Dawson House, Liverpool Road, Great Sankey, Warrington WA5 3LW, before the end of the said period.

After the expiration of the said period the Authority will be entitled to pass a Resolution by virtue of which the said licence will be varied as proposed unless the Secretary of State for the Environment either in consequence of any representations made with respect to the proposals or otherwise requires the application for the variation to be made to him.

These same proposals were originally advertised in the *Cumberland News* on 15th and 22nd May 1987, and in the *Whitehaven News* on 14th and 21st May 1987. There is therefore no need for any person who made representations in response to the notices in these newspapers to make them again.

W. H. Crackle, Secretary and Solicitor

Extension to the boundary of Moseley Conservation Area

Notice is hereby given in pursuance of section 277 of the Town and Country Planning Act 1971 as substituted by section 1 of the Town and Country Amenities Act 1974 that the City Council of Birmingham consider it expedient that the boundary of the said Conservation Area be extended to include the area described in the Schedule of this Notice.

- (b) Where any application for planning permission for development of land in or adjacent to the Conservation Area is made to the Council, and the development would, in the opinion of the Council affect the character or appearance of the Conservation Area, the application will be subject to the special procedure in section 28 of the Town and Country Planning Act 1971 as amended.

- (c) Anyone wishing to cut down, lop, or uproot a tree situate within a Conservation Area must give six weeks prior notice of his intention to the Local Planning Authority.
