Vienna, August 24. N. S.

IT is said their Imperial Majesties will remove soon to Ebersdorff, to avoid the Contagious Distemper which continues still in this City. The Envoy of Poland is often in Conference with our Ministers, and frequent Dispatches pass between him and his Court. It is thought these Conferences relate as well to the Designs of the Turks against Poland, as to the Congress that is to be formed at Brunswick, to establish the Repose of the Circle of Lower-Saxony. Letters from Adrianople bring an Account, that the Turks continue to make great Preparations for War, and it is thought they will either attempt to restore King Stanislaus to the Crown of Poland, or at least endeavour to procure some Advantages from King Augustus, to make them desist from their Design. The same Advices add, that the King of Sweden was dangerously Sick of a Fever.

Berlin, September 9. N. S. Yesterday the Queen went to meet the King at Weysterhausen, where his Majesty intends to Celebrate the Anniversary of the Battle of Malplaquet, at which he was present in Person. Count Flemming returned hither from Pomerania on the 3d, and on the 7th he set out for Poland. We have received Advice, that Fifteen hundred of the Garrison of Stetin sallied out of the Town a few Days ago, nailed up two Pieces of the Besiegers Cannon, and killed two Officers and One hundred Men, after which they retired with the Loss of about Twenty Men. The Trenches were not then opened before that Place.

Hamburg, September 12. N. S. The Danish Minister residing here, has declared to all the other Ministers, by Order of the King his Master, that his Majesty had been inform'd of a false Report that was spread, as if he had a design to make an Attempt upon this City, which was only a Calumny invented by his Enemies to raise a Jealousie in the neighbouring Princes, and that to remove all Suspicion, he had sent Orders to General Scholten to withdraw his Forces from our Territories. It is said the Emperor has agreed with the King of Denmark for a Body of Eight thousand Men to serve against France. The Barons Goertz and Mardefeldt are gone towards Gottorp, where its thought they are now arriv'd, and in a few Days we expect to hear of the Issue of their Negotiations. Monsieur Bassewitz, Minister of Holstein, is return'd from Stetin to Berlin. The most important Points he had to treat with Prince Menzikoff were, the subjects of putting a Garrison of the Troops of some Neutral Prince into Tonningen, and the evacuation of Holstein: To which the Prince answer'd him plainly, That his last Instructions, relating to those Affairs, were very different from what he had formerly, and that the Duke of Holstein would do well to accommodate Matters amicably with the King of Denmark. The Muscovites have made themselves Masters of Malchin, a Town in Pomerania, and sent out the Garrison, consisting of some Troops of Militia. General Buck is gone to the Court of Mecklenburg with One thousand Dragoons to demand Rostock, Butzow, or Gustrow of the Duke, for a Place of Arms for the Muscovite Magazines. From whence it is thought that Nation has a design to Winter in Mecklenburg, Pomerania not being sufficient to subsist them. They write from Warlaw, that King Augustus had received Letters from his Ambassador at Adrianople,

with an account, that the Port had yet return'd no Answer to the last Proposals he had made them; no Day had been fix'd on for his Audience, tho' he was treated with great Civility. The Grand Signior persisted in his Design of Fortifying Cotechin, which is said to be contrary to the Treaty concluded with the Republick. The King of Sweden continued ill of a Fever, and had refus'd both the Advice of the Physician, and the Medicines the Grand Signior had sent him.
