4408/0013	Thames Laboratories Limited	Stingose	Aluminium Sulphate BP 20.5% w/v	Stingose is designed to relieve the pain and minimise the after effects of stings and bites of insect, animal or plant origin. Stingose should be sprayed directly on to the affected area. By nature of the mode of action, it is essential that Stingose is applied as soon as possible after venomation, as venom which has already been systemically absorbed will not be denatured. If applied immediately after venomation, there will be little need to re-apply Stingose as the inflammation and pain should not occur. GSL.
4425/0091	Merrill Dow Pharmaceuticals Limited	Trilundan Forte Tablets	Terfenadine 120.0 mg	Symptomatic relief of allergic conditions responsive to antihistamines including hay fever, allergic rhinitis, allergic skin conditions. PM.
