NOTICE

TREASURY MINUTE dated 24th January 1989.

The Lords Commissioners of Her Majesty's Treasury read section 3(2) of the National Loans Act 1968 (1968 C.13 as amended) whereby any sums borrowed from the Public Works Loan Commissioners shall bear interest at such rates as the Treasury may determine from time to time in accordance with section 5 of the said Act.

My Lords understand that the Public Works Loan Commissioners will be operating arrangements under which local authorities are permitted to borrow from the Commissioners up to a specified quota at a certain fixed rate of interest and in excess of such quota at one of two higher fixed rates.

In accordance therewith the Chancellor of the Exchequer now recommends that with effect from 5th July 1989 and until the coming into operation of a further determination:

- (i) The rate of interest applicable to any such fixed rate loan will be that in force on the day the authority applies to borrow or, if the application is before noon three working days before the loan is credited to the account of the authority's banker, the rate in force at 11 a.m. two banking days before credit day;
- (ii) Different rates of interest shall be charged on such fixed rate loans according to whether the principal of a loan is repaid by

instalments or at maturity and, if repaid by instalments, whether by equal instalments of the principal with interest paid on the decreasing balance of the principal (E.I.P.), or by instalments of equal repayments of the principal and interest paid thereon (E.R.);

(iii) The rates of such interest shall be:

Notice of Proposals (i) To vary a combined Licence to obstruct or Impede the flow of an Inland Water by means of Impounding Works and to abstract Water therefrom, and (ii) To vary a Licence to abstract water, and (ii) for new Licences to abstract water in place of existing Licences.

The Authority has reviewed its requirements for its licences for the River Derwent supply system (including Carsington and Ogston Reservoirs). The following notice is published in accordance with statutory requirements for Authority proposals for variations to its own existing licences, or in some cases, for new licences to be granted in place of existing licences. These proposed changes take account of the Authority's current operational requirements and, if granted, will not result in any greater aggregate rate of abstraction from the River Derwent being authorised than exists at present.

Notice is hereby given that the Severn-Trent Water authority (hereinafter called "the Authority") whose head office is at Abelson House, 2297 Coventry Road, Sheldon, Birmingham B26 3PU, has formulated proposals as follows:

- (1) To vary Licence Serial No. 3/28/29/64/I and S which authorises an impounding on the Scow Brook at National Grid Ref. SK 244 503 in the parishes of Hognaston and Kirk Ireton in the District of Derbyshire Dales and abstraction for the impounding to be known as Carsington Reservoir at National Grid ref. SK 245 502 for the purpose of the regulation of the Rivers Derwent and Dove. The proposal is to vary only the purpose for which water is authorised to be used by the licence to include "the transfer of water to Ogston Reservoir for subsequent re-abstraction by virtue of Licence Serial No. 3/28/41/25/S/R".
- (2) For a new licence (Ref. No. 3/28/40/121/S) to replace (i) Licence Serial No. 3/28/40/114/S which authorises abstraction from the River Derwent in the Parish of Crich near Ambergate, Derbyshire at National Grid Ref. SK338 528 for the purpose of supplying Carsington Reservoir and (ii) Licence Serial No. 3/28/40/117/S which authorises abstraction from the River Derwent at Ambergate at National Grid Ref. SK 338 528 for public water supply purposes. As the two existing licences authorise abstraction at the same place, they are to be replaced and the proposal is for the resultant new licence to authorise the transfer of water to both Carsington and Ogston Reservoirs for subsequent re-abstraction pursuant to existing licences Nos. 3/28/29/64/I and S and 3/28/41/25/S/R respectively.
- (3) For a new licence (Ref. No. 3/28/44/6/S) to replace (i) Licence Serial No. 3/28/44/5/S which authorises abstraction from the River Derwent at Little Eaton near Derby at National Grid Reference SK 359 408 for the purpose of public water supply and (ii) Licence Serial No. 3/28/48/20/S which authorises abstraction from the River Derwent near Draycott, Derbyshire at National Grid ref. SK 445 327 for the purpose of public water supply. The proposal is for a single licence to enable water to be abstracted at either National Grid ref. SK 445 327 and /or at National Grid Ref. SK 359 408. The authorisation to abstract at SK 445 327 is being retained in the event of unavoidable interruption in the supply from SK 359 408 (Little Eaton).
- (4) To vary Licence Serial No. 3/28/46/7/S/R which authorises abstraction from the River Derwent at Little Eaton near Derby at National Grid Ref. SK 360/405 for the purpose of public water supply. The proposal is:
 - (i) to redefine the abstraction point as National Grid Ref. SK 3592 4081;
 - (ii) to simplify the definition of the means of abstraction by relacing the words in the Special Conditions with the words "a river intake, infiltration galleries and pumping equipment";
 - (iii) to increase the maximum authorised quantities from 43,187 cubic metres (9,500,000 gallons) a day and 15,348,432 cubic metres (3,376,250,000 gallons a year to 70,00 cubic metres a day and 20,075,000 cubic metres a year.
- (5) To vary Licence Serial Number 3/28/42/25/S/R which authorises abstraction from Ogston Reservoir on the River Amber at Woolley near Chesterfield, Derbyshire at National Grid Reference SK 379 598 for the purpose of public water supply. The proposal is to increase the maximum authorised quantities from 34,095 cubic metres (7,500,000 gallons) a day and 10,783,112 cubic metres (2,372,000,000 gallons) a year to 105,000 cubic metres a day and 31,025,000 cubic metres a year and deletion of reference to pump capacities.

In addition the licences which will authorise abstraction from the River Derwent (proposed new licence numbers 3/28/40/121/S, 3/28/44/6/S and varied licence number 3/28/46/7/S/R) will include special conditions which limit the instantaneous rate of abstraction and the mean daily rate of abstraction by reference to the flow in the River Derwent as measured at the Authority's gauge at St. Mary's Bridge, Derby but which allow the continued abstraction of water previously released to the River Derwent either from Ladybower Reservoir in excess of the compensation discharge requirement or from Carsington Reservoir.

The proposals are summarised in the table below which refers to the numbered paragraphs above.
