DEPARTMENT OF ENERGY

THE PETROLEUM (PRODUCTION) (SEAWARD AREAS) REGULATIONS 1988

The Secretary of State for Energy invites applications, in accordance with the Petroleum (Production) (Seaward Areas) Regulations 1988 (SI 1988 No. 1213), as amended by the forthcoming Petroleum (Production) (Seaward Areas) (Amendment) Regulations 1990 (in this notice called "the Regulations"), for petroleum production licences in respect of the blocks specified in the Schedules to this notice and delineated on maps deposited in the Library at the Department of Energy, 1 Palace Street, London SW1E 5HE. The maps may be inspected by prior appointment (telephone no. 071-238 3042) between 0915 and 1645 hours Monday to Friday until 12th December 1990 for those blocks listed in Schedule 1 below and until 15th January 1991 for the tranches of blocks listed in Schedule 2.

Consideration for and Conditions of Licences

2. (a) *Licences issued on standard terms.*
Licences issued in respect of blocks listed in Schedule 1 will have an initial term of six years with a second term of twelve years. This second term may be extended beyond twelve years for a further period of eighteen years. These licences will be subject to the conditions set out in Schedule 4 to the Regulations.
- (b) *Licences issued on Frontier Area terms.*
Licences issued in respect of tranches of blocks listed in Schedule 2 will have an initial term of nine years with a second term of fifteen years. This second term may be extended beyond fifteen years for a further period of twenty-four years. These licences will be subject to the conditions set out in Schedule 4 to the

A

Regulations, apart from those conditions relating to the duration of the licences and the surrender of parts of the licensed area.

3. The consideration required in respect of production licences granted as a result of this invitation will be:

- (a) in respect of licences referred to in paragraph 2(a) above an initial payment, at the time the offer of a licence is accepted, of £350 for each square kilometre comprised in the licensed area;
- (b) in respect of licences referred to in paragraph 2(b) above an initial payment, at the time the offer of a licence is accepted, of £60 for each square kilometre comprised in the licensed area;
- (c) in either case subsequent annual payments determined according to the following provisions:

(i) in respect of licences referred to in paragraph 2(a) above, on the sixth anniversary of the date of commencement of the licence term (following exercise of the option to continue as to the remaining period of the licence) the sum of £400 will be payable for each square kilometre in the area to which the licence then relates; on the seventh anniversary £800 per square kilometre and so on, rising by annual increments of £400 until an annual sum of £6,000 is payable for each square kilometre comprised in the licensed area;

(ii) in respect of licences referred to in paragraph 2(b) above, on the third, fourth and fifth anniversaries of the date of commencement of the licence term the sum of £20 will be payable for each square kilometre comprised in the licensed area; on the sixth, seventh and eighth anniversaries the sum of £40 will be payable for each square kilometre comprised in the licensed area; on the ninth, tenth and eleventh anniversaries (following exercise of the option to continue as to the remaining period of the licence) the sum of £200 for each square kilometre in the area to which the licence then relates; on the twelfth anniversary £650 per square kilometre and so on, rising by annual increments of £450 until an annual sum of £5,600 is payable for each square kilometre comprised in the licensed area;

(iii) the payments specified in sub-paragraph 3(c)(i) and 3(c)(ii) above will be subject to variation as follows:

- (aa) The annual payments will be increased or subsequently reduced in line with movements in the Index of the Price of Crude Oil acquired by Refineries (published in the Digest of UK Energy Statistics) if the Minister so determines. The Minister will give notice of any such determination ("biennial determination") during the month preceding the eighth anniversary of the date of commencement of licences referred to in paragraph 2(a) above, or the thirteenth anniversary of the date of commencement of licences referred to in paragraph 2(b) above, or any subsequent two-yearly anniversary, and will specify in the notice the increase or reduction in the amount payable. Movements in the Index will be calculated by reference to a comparison between the arithmetic mean of the Index levels for the two latest calendar years for which figures are available at the time when the determination is made, and the arithmetic mean of the Index levels for 1988 and 1989. In the event that the Index of the Price of Crude Oil acquired by Refineries ceases to be published, the Minister may substitute arrangements for redetermination of annual payments having substantially similar effect to those set out above based on such other comparable Index as he may determine.
 - (bb) The increase or reduction specified in a biennial determination will be payable or take effect on the anniversary of the date of commencement of the licence next following the date of the relevant determination.
 - (cc) No biennial determination will have effect so as to reduce the annual payments below the levels set in sub-paragraphs 3(c)(i) or 3(c)(ii) as the case may be.
 - (dd) The Minister will not make a biennial determination increasing or reducing the amounts payable, where that increase or reduction would be 5 per cent or less of the levels set following the previous biennial determination.
- (d) A royalty (provided for in clauses 10-13 of Schedule 4 to the Regulations) at the rate of 12.5 per cent payable in respect of petroleum won and saved from any field which is neither:
- (i) a relevant new field for the purposes of the Petroleum Royalties (Relief) Act 1983, nor
 - (ii) a relevant Southern Basin or onshore field for the purposes of the Petroleum Royalties (Relief) and Continental Shelf Act 1989.

4. Licences may be granted subject to special conditions governing the notice required for, and the timing and circumstances of,

operations carried out thereunder. It should also be noted that on certain blocks, designated by an asterisk in the Schedules, areas within which drilling may take place will be restricted.

5. Licences granted under Frontier Area terms.

- (a) Applicants for such licences will be required to submit to the Department of Energy a work programme of seismic and other forms of exploration not involving drilling. Proposals for drilling will be acceptable but not required. The work programme will have to be carried out in the first three years ("the first part") of the initial term of the licence. However, the Secretary of State will be prepared to consider using his discretion to extend the first part of the initial term to a maximum of four years in individual cases. (In such cases the total length of the initial term will remain at nine years).
 - (b) If licensees do not wish to continue into the second part of the initial term they may surrender the licence at the end of the first part of the initial term.
 - (c) There will be no requirement for licensees to submit a work programme to the Department of Energy for the second part of the initial term. However, a decision by licensees to continue into the second part of that term will be taken to mean that, if no well has already been drilled under the licence, they would plan to drill at least one exploration well before the expiry of the initial term. The number of wells drilled by the end of the initial term will determine how much acreage may be retained for the second term, in accordance with the provisions of paragraph 6 below, unless circumstances in individual cases justify an alternative approach.
6. Licensees holding a licence issued under Frontier Area terms will be allowed to retain acreage at the end of the initial term according to the following provisions unless the Secretary of State decides otherwise. One exploration well drilled in the initial term will allow retention of up to a quarter of the area held by the licensee at the end of the initial term. Two exploration wells drilled will allow retention of up to half the area held by the licensee at the end of the initial term. Three or more exploration wells drilled will allow retention of the whole of the area held by the licensee at the end of the initial term. Wells drilled in both parts of the initial term of the licence will be allowed to count for this purpose. Licensees will be able to opt to retain less than the maximum allowed. In order to qualify under these provisions, wells must be drilled to geological targets where hydrocarbons are expected to be present or for the purposes of establishing the source and reservoir potential of the overall geological section of the licensed area.
7. For licences awarded under Frontier Area terms, the Secretary of State will be prepared to give consent to proposals, where these are otherwise acceptable, to assign interests in licences to others after the end of the first part of the initial licence term.

Applications for Licences.

8. In respect of all blocks listed in the Schedules:

- (a) applications should be made on a standard application form available from the Department of Energy. Applicants should note that the Secretary of State will entertain applications only for blocks and tranches of blocks specifically identified in the application and drawn from those listed in the Schedules;
- (b) applications in respect of the blocks listed under Schedule 1 should be delivered between 0930 and 1200 hours on Tuesday, 11th December 1990 or between 0930 and 1200 hours on Wednesday, 12th December 1990 to the Oil & Gas Division of the Department of Energy at 1 Palace Street, London SW1E 5HE, together with a remittance in respect of the appropriate application fee which will be increased to £3,700 in a forthcoming amendment to Regulation 9(2) of the Regulations;
- (c) applications in respect of the tranches of blocks listed under Schedule 2 should be delivered between 0930 and 1200 hours on Tuesday, 15th January 1991 to the Oil & Gas Division of the Department of Energy at 1 Palace Street, London SW1E 5HE, together with a remittance in respect of the appropriate application fee which will be increased to £3,700 in a forthcoming amendment to Regulation 9(2) of the Regulations;
- (d) no applications will be accepted after 1200 hours on Wednesday, 12th December 1990 in respect of the blocks listed in Schedule 1 and after 12.00 hours on Tuesday, 15th January 1991 in respect of the tranches of blocks listed under Schedule 2;
- (e) (i) applicants for licences for blocks listed in Schedule 1 are requested to indicate where possible any preference they attach to the blocks applied for and should indicate if blocks are applied for as alternatives;
- (ii) applicants for licences for tranches of blocks listed in Schedule 2 must indicate the preference they attach to the

tranches applied for and indicate if tranches are applied for as alternatives;

- (f) applications should be accompanied by details of the work programme the application proposes to carry out if awarded a licence;
 - (g) further guidance on the material with which applicants may support their applications is given in Guidance Notes available from the Department of Energy;
 - (h) copies of documents referred to in the text of this notice as being available from the Department of Energy may be obtained from the Licensing Branch (Room 3.2M.23), Oil and Gas Division, Department of Energy, 1 Palace Street, London SW1E 5HE (telephone no. 071-238 3211/3212).
9. Applicants will be judged against the background of the continuing need for expeditious, thorough and efficient exploration to identify oil and gas resources of the UK Continental Shelf. Where applicants hold or have held licences their overall record on exploration and exploitation will be taken into account. Attention will among other matters be given to blocks which at 31st December 1988 had not been drilled for at least 10 years, and in particular whether such blocks have recently been drilled or surrendered.
10. In the case of tranches of blocks listed in Schedule 2, it will be an objective to secure the involvement of a range of companies in so far as the quality and quantity of applications allow this.
11. Following examination of all applications the Secretary of State will select the applicants to whom he is prepared to award licences. If there are two or more applicants for a block listed in Schedule 1 who would be equally acceptable to the Secretary of State as licensees for that block he may suggest that the licence should be held jointly by some or all of such applicants.
12. The selected applicants will be offered licences on condition that within 14 working days of the date on which the Secretary of State makes the offer of an award:
- (a) they confirm acceptance of a work programme proposed by the Secretary of State following discussion with the applicants concerned;
 - (b) they remit to the Secretary of State the appropriate payment referred to in paragraph 3(a) or (b) above; and
 - (c) they confirm in writing that they accept any special conditions or restrictions of the sort referred to in paragraph 4 above.
13. Unsuccessful applicants will be notified in writing.

Notice is hereby given that the Secretary of State for Wales under the powers provided in section 36 of the Wildlife and Countryside Act 1981 has made the Skomer Marine Nature Reserve Order 1990. The Order takes effect from 6th July 1990.

The general effect of the Order, is that in respect of the area designated (which is described below) the Nature Conservancy Council is responsible for the management of the Reserve, for the purpose of conserving marine flora and fauna and features of geological or physiographical interest; and for providing opportunities for their study under suitable conditions and control and this means that the area will be subject to certain prohibitions or restrictions specified in the relevant byelaws which are set out in the Order.

If any person is aggrieved by this Order and desires to question its validity on the ground that it is not within the powers of section 36 of the Wildlife and Countryside Act 1981 or that any of the requirements of Schedule 12 to that Act have not been complied with in relation to the Order, he may, within 42 days of the date of publication of this notice, make an application to the High Court to quash the Order or any provision of the Order, either generally or insofar as it affects the interests of the applicant.

Copies of the Order and the byelaws which have either been made or are proposed to be made for the protection of the area described below together with a copy of the map which shows the area have been deposited in the offices of the Preseli Pembrokeshire District Council, Cambria House, Haverfordwest and Dyfed County Council, County Hall, Carmarthen, and may be seen free of charge at all reasonable hours. Copies may also be obtained free of charge from the Welsh Office, ERP3A, Crown Buildings, Cathays Park, Cardiff DF1 3NQ.

DESCRIPTION OF AREA

The proposed Skomer Marine Nature Reserve includes 27 kilometres of shore and the tidal waters or parts of the sea covering it, continuously or intermittently, and (circa) 1,500 hectares of land surrounding Skomer Island, Middleholm (Midland Isle), Gateholm and the Marloes Peninsula, and the water covering it continuously or intermittently.

The area's *shoreward boundary* is a line defined by Highest Astronomical Tide (HAT) from the eastern headland of the small bay (marked Hoppang on 1/25,000 scale Ordnance Survey maps) at Longitude 5°13' west (SM77920891) on the north coast of the Marloes Peninsula, around the peninsula to the south-east extremity of Horse Neck (SM77230750), and around the coasts of the islands of Skomer, Middleholm (Midland Isle) and Gateholm, except within Martin's Haven where the shore boundary is Mean Tide Level between the east side of the Haven at SM76090917 and the "Landing Place" at SM76030917.

The *seaward-boundary* is a line from HAT at the south-east extremity of Horse Neck (SM77230750) on a true bearing of 135° to Mean Low Water of Ordinary Tides (MLWOT).

Thence at MLWOT along the eastern shore, and to the southern extremity of Gateholm (SM76760700).

Thence from the last mentioned position on a true bearing of 278° for a distance of 4.17 kilometres (2.25 nautical miles) to a position in Latitude 51°43'32' west 500 metres (2.75 cables) due south (true) of MLWOT at the south-western extremity of the Mewstone.

Thence 500 metres (2.75 cables) offshore from MLWOT around the western shores of Skomer to a position in Latitude 51°44'96' north, 5°18'08' west, 366 metres (2 cables) due north (true) of the north-west extremity of the Garland Stone.

Thence on a true bearing of 098° for a distance of 5.89 kilometres (3.18 nautical miles)—to a position in Latitude 51°44'5' north, 5°13' west, thence due south (true) for a distance of 840 metres (4.5 cables) to the point of commencement of the shoreward boundary at HAT on the mainland coast.

The boundaries are also shown hatched in black on Map 1 attached to the draft Order (Annex 1).

Signed by the Authority of the Secretary of State for Wales,
5th July 1990.

M. E. Bevan, Assistant Secretary in the Welsh Office.

Statutes in Force

A vital reference work on the law of the land

What is *Statutes in Force*?

Statutes in Force is the official revised edition of the statutes. It provides the text (without commentary) of the current statute law of the land, in a way which is

comprehensive

convenient

constantly updated

The complete edition consists of 107 looseleaf binders which contain hole-punched crown quarto (246 x 189mm) booklets - giving a total of some 60,000 pages. The Acts are arranged, not in purely chronological order, but classified into 125 groups according to subject matter.

Statutes in Force is intended to be a permanently renewable edition of revised statutes. It is kept up to date in a number of ways:

- The issue of new Acts for insertion into their appropriate groups (they are published in complete text form usually within two months after Royal Assent)
- The issue of instructions for the removal of repealed Acts
- The publication of revised reissues of heavily-amended Acts
- Cumulative supplements for each affected group giving particulars of amendments and partial repeals (pending their eventual incorporation in revised reissues of the affected Acts).

Customers may obtain copies of **any** individual Act in the *Statutes in Force* edition. This service will be of most benefit when ordering heavily amended Acts which have been revised and re-issued or Acts which are now out-of-print in the original (Queen's Printer) version.

There's a free leaflet on *Statutes in Force* available from:
