WATER ACTS

EASTBOURNE WATER COMPANY

WATER ACT 1989

Public Notice

Notice is hereby given that because of an exceptional shortage of rain in the winter of 1988-89 and the spring of 1990, a serious deficiency of supplies of water is threatened in that part of the Company's area supplied from the River Cuckmere, in the District Council of Wealden in the county of East Sussex.

The Company, therefore, intends to apply to the Secretary of State for the Environment for an Order pursuant to section 131(4)F of the Water Act 1989, to suspend restrictions on abstraction of water from the River Cuckmere, as contained in a licence to abstract water, Licence No. 10/41/152004, granted by Southern Water in 1972. The modifications sought will provide as follows:

1. Until 31st March 1991, the Company may abstract water from the River Cuckmere at the point of abstraction mentioned in the 1972 licence, at anytime when the flow in the river is not less than the minimum flow. "The Minimum Flow" means a flow of 4.54 megalitres per day, as measured at the National Rivers Authority's gauging station at Sherman's Bridge.

2. Until 31st March 1991, the Company will only discharge sufficient water into the River Cuckmere to maintain the minimum flow, if so required by the National Rivers Authority in the interest of water quality in the river.

A copy of the application may be inspected by any person, free of charge, during all reasonable office hours at the Company's Head Office, 14 Upperton Road, Eastbourne, for a period of 7 days from the date of publication of this notice. Objections to the application may be made to the Secretary of State for the Environment, Room B.449, Romney House, 43 Marsham Street, London SW1P 3PY, with a copy to the undersigned, within 7 days of the publication of this notice.

Where it appears to the Secretary of State that an Order is required to be made urgently if it is to enable the Company effectively to meet a deficiency of supplies of water referred to above, he may direct that the need for a hearing shall be dispensed with.

EASTBOURNE WATER COMPANY

WATER ACT 1989

Public Notice

Notice is hereby given that because of an exceptional shortage of rain in the winter of 1988-89 and the spring of 1990, a serious deficiency of supplies of water is threatened in that part of the Company's area supplied from the River Rother, in the District Council of Rother in the county of East Sussex.

The Company, therefore, intends to apply to the Secretary of State for the Environment for an Order pursuant to section 131(4)F of the Water Act 1989, to suspend restrictions on abstraction of water from the River Rother, as contained in a licence to abstract water, Licence No. 9/40/6/260/S, granted by Southern Water in 1973. The modifications sought will provide as follows:

To reduce the minimum residual flow, below which abstraction is not permitted, from the figure given in the Licence of 26.37 megalitres per day, to a daily flow to be notified to the Company by the National Rivers Authority. The notified daily flow to be calculated with reference to SWA's abstraction at Rothersbridge.

A copy of the application may be inspected by any person, free of charge, during all reasonable office hours at the Company's Head Office, 14 Upperton Road, Eastbourne, for a period of 7 days from the date of publication of this notice. Objections to the application may be made to the Secretary of State for the Environment, Room B.449, Romney House, 43 Marsham Street, London SW1P 3PY, with a copy to the undersigned, within 7 days of the publication of this notice.

NATIONAL RIVERS AUTHORITY, ANGLIAN REGION

WATER ACT 1989

Notice of Application for Drought Order

Notice is hereby given that the National Rivers Authority (Anglian Region) is applying to the Secretary of State for the Environment for an Order under section 131(3)(d) of the above Act.

The general effect of the Order would be to modify section 17(5)(b) of the Ely Ouse—Essex Water Act 1968, until 28th February 1991, by the substitution of "114 thousand cubic metres per day" for "70,000,000 gallons" as the rate of flow prescribed before abstraction can be made from the Ely Ouse River. The reduced rate is equivalent to that prescribed for the period 1st March to 31st August i.e. 25,000,000 gallons per day. The Order is sought on account of reduced rainfall, to safeguard supplies within the area of the Essex Water Company, and to maintain flows in the River Stour and the River Blackwater. The water abstracted is transferred to the rivers via the Ely Ouse—Essex Transfer Scheme and subsequently reabstracted to replenish Abberton and Hanningfield reservoirs. It is not anticipated that there would be unacceptable adverse effects on flows in the River Great Ouse, on water quality or on any licensed abstraction as a result of the Order.

A copy of the draft Order and the relevant map may be inspected, free of charge, at the Authority's offices at Denver Sluice, Denver, Norfolk, and at Wisbech Road, King's Lynn, Norfolk, at all reasonable times, within a period of seven days from the date of publication or service of this notice.

Objections to the application may be made to the Secretary of State for the Environment, 43 Marsham Street, London SW1P 3PY, within the said seven day period.
