

A Conservation area is defined as an area of special architectural or historic interest, the character or appearance of which it is desirable to preserve or enhance. In particular, the principal effects of designation which may concern property owners in the area are:

- (a) the consent of the District Council is required to demolish any building (or part) in the Conservation Area, whether listed or otherwise (although there are certain minor exemptions);
- (b) high standards of design for new development proposals will be required to respect the character of the Conservation Area, with particular regard to materials, massing, height and proportions, etc. such considerations would also apply to any alterations to existing buildings;
- (c) the consent of the District Council is required to top, lop or fell any tree(s) in the Conservation Area.

In addition to these statutory provisions, consideration will also be given to the co-ordination and implementation of schemes which will enhance the physical environment of the Conservation Area.

Plans showing the boundaries of these Conservation Areas and further advice may be obtained from the Director of Development Services, Bridgewater House, King Square, Bridgewater.
