

object of the licence is to authorise the lowering of the existing impounding structure. The new capacity of the reservoir at overflow level will be 76,810 cubic metres.

A copy of the application and of any maps, plans or other documents submitted with it may be inspected, free of charge, at the offices of Severn-Trent Water Limited at Dimple Road, Matlock, Derbyshire or may be obtained by telephoning the Water Resources Section on 021-722 4000, at all reasonable hours during the period beginning on 1st July 1992 and ending on 31st July 1992.

Any person who wishes to make representations about the application should do so in writing to the Catchment Regulation Section, National Rivers Authority, Sapphire East, 550 Streetsbrook Road, Solihull B91 1QT, before the end of the said period.

*D. Mattin*, Company Secretary, Severn-Trent Water Limited.

#### NATIONAL RIVERS AUTHORITY—SOUTHERN REGION

##### *Notice of application for consent in pursuance of schedule 10*

Notice is hereby given, in accordance with Schedule 10 of the Water Resources Act 1991, that an application has been made to the National Rivers Authority (Southern Region) by Southern Water Services Ltd. for consent to discharge to the English Channel from Langney Point Marine Treatment Works, Eastbourne.

The application proposes that:

1. There will be a new discharge of up to 35,424 cubic metres per day of settled screened sewage effluent (in dry weather conditions) from a proposed new 3.3 kilometres long sea outfall, at National Grid Reference TV 6576 9815.
2. The present 700 metres sea outfall, discharging at National Grid Reference TQ 6470 0034, will be used for the discharge of screened storm sewage, and will operate on average no more than 1.5 times per bathing season, when the storage capacity if the sewerage system is exceeded and the flow to the main outfall exceeds 2,480 litres per second.
3. The present storm outfall, discharging at National Grid Reference TQ 6430 0090, will be used as a supplementary storm outfall for the discharge of screened storm sewage. The discharge will only take place during a storm greater than a one in 50 years return event, when the storage capacity in the sewerage system is exceeded and the flow to the 700 metres outfall exceeds 3,750 litres per second.
4. The flows from Pevensay and Pevensay Bay will be transferred to Langney Point outfall, resulting in the closure of the existing outfall at Pevensay Bay.

This scheme has been proposed to enable the bathing waters at Pevensay Bay and Eastbourne to comply with standards required under EC Bathing Water Directive (76/160/EEC), and to provide the degree of sewage treatment specified by the Department of the Environment under the "Patten Initiative".

Any person wishing to make representation about the application should do so in writing to the Environmental Protection Manager, National Rivers Authority, Southern Region, Guildbourne House, Chatsworth Road, Worthing, West Sussex BN11 1LD, not later than 10th August 1992, quoting ref. A639/S/92.

A copy of the application may be inspected, free of charge, at the offices of the National Rivers Authority, Coast Road, Pevensay Bay, East Sussex, at all reasonable hours.

*M. J. Davies*, Solicitor, National Rivers Authority, Southern Region.  
9th June 1992. (724)

#### NATIONAL RIVERS AUTHORITY—THAMES REGION

##### *Notice of application to vary a licence to abstract water*

Notice is hereby given that an application is being made to the National Rivers Authority—Thames Region by Thames Water Utilities Ltd., Nugent House, Vastern Road, Reading, Berkshire RG1 8DB, to vary the licence serial No. 28/39/25/51 to abstract water from the underground strata (Chalk) at Radnage Pumping Station, Bottom Road, NGR SU 7963 9714, parish of Bledlow-cum-Saunderton, Wycombe. The variation applied for is to include on the licence the two abstraction points grouped at NGR SU 790 974 currently authorised at Bennetts End Pumping Station (Licence serial No. 28/39/25/43). This variation will allow greater flexibility in the operation of these sites, but there will be no increase in overall licensed resources.

A copy of the application and of any map, plan or other document submitted with it may be inspected, free of charge, at Bennetts End Pumping Station, Bottom Road, Bennett End, at all reasonable hours during the period beginning Monday, 29th June 1992, and ending one month after that date.

Any person who wishes to make representations about the application should do so in writing to the Catchment Control Manager, National Rivers Authority—Thames Region, Kings Meadow House, Kings Meadow Road, Reading, Berkshire RG1 8DQ, before the end of the said period.

*D. M. McEwen*, on behalf of Thames Water Utilities Ltd.

#### NATIONAL RIVERS AUTHORITY—THAMES REGION

##### *Notice of application to vary a licence to abstract water*

Notice is hereby given that an application is being made to the National Rivers Authority—Thames Region by Thames Water Utilities Ltd., Nugent House, Western Road, Reading, Berkshire RG1 8DB, to vary the licence serial No. 28/39/19/186 to abstract water from underground strata (Upper Greensand) at Chinnor Pumping Station, Kingston Hill, NGR SU 744 982, parish of Aston Rowant, South Oxfordshire. The variation applied for is to include an additional point of abstraction at NGR SU 7447 9825. There being no increase in licensed resources. The additional borehole will provide a backup to the existing supply.

A copy of the application and of any map, plan or other document submitted with it may be inspected, free of charge, at Chinnor Pumping Station, Kingston Hill, at all reasonable hours during the period beginning Monday, 29th June 1992, and ending one month after that date.

Any person who wishes to make representations about the application, should do so in writing to the Catchment Control Manager, National Rivers Authority—Thames Region, Kings Meadow House, Kings Meadow Road, Reading, Berkshire RG1 8DQ, before the end of the said period.
