The Secretary of State for Trade and Industry invites interested persons, in accordance with the Petroleum (Production) (Landward Areas) Regulations 1991 (SI 1991, No. 981) to apply for petroleum exploration licences in respect of five areas comprising (i) blocks SU93 and TQ03, (ii) blocks TQ22 AND TQ32d, (iii) blocks SE50, SE51a, SE60a and SE61, (iv) blocks SJ95a and SJ96a and (v) block SK45, as delineated on maps deposited in the Library at the Department of Trade and Industry, 1 Palace Street, London SW1E 5HE. The maps may be inspected by prior appointment (Telephone No. 071 238 3424) between 0915 and 1645 hours, Monday to Friday until Monday, 2nd August 1993.

2. This invitation does not form part of a licensing round.

Applications for licences

3. In respect of the blocks referred to in paragraph 1 above:

- (a) applications should be made on a standard application form available from the Department of Trade and Industry (at the address given at paragraph 1 above);
- (b) applications should be delivered to the Oil and Gas Division of the Department of Trade and Industry at 1 Palace Street, London SW1E 5HE, between 1000 and 1200 hours, on Tuesday, 3rd August 1993, together with a remittance in respect of the appropriate application fee of £1,000 in respect of each area applied for;
- (c) no applications will be accepted after 1200 hours on 3rd August 1993;
- (d) applicants are requested to provide details of the work programme they intend to carry out if awarded a licence;
- (e) applicants should be aware of the need to submit a statement of their policy with regard to the environment;
- (f) further guidance on the material with which applicants may support their applications is given in the Guidance Notes available from the Department of Trade and Industry.

4. Applicants will be judged against the background of the continuing need for expeditious, thorough, efficient and safe exploration to identify oil and gas resources within the mainland of Great Britain, with due regard to environmental considerations. In addition, the financial and technical capacity of each applicant and a threshold of acceptability for other criteria, including technical competence, health and safety and environmental policies will be paramount considerations before evaluation of applications are made upon technical criteria. These include:

- the quality of geological analysis related to the block being applied for and the identification of prospects (including whether work done was innovative);
- the quality of the work programme submitted for evaluating the full potential of the block;
- the experience or technical databases (e.g. of relevant seismic data) of applicants in each applicant group.

Where applicants hold or have held licences, their overall record on exploration and exploitation may also be taken into account, but no preference will be given to such licensees as a result of holding or having held a licence.

5. Following examination of all such applications the Secretary of State will select the applicants to whom he is prepared to award licences. If there are two or more applicants for a block who would be equally acceptable to the Secretary of State as licensees for that block he may suggest that the licence should be held jointly by some or all of the applicants.

6. Unsuccessful applicants will be notified in writing.

Conditions

7. In all cases where the Secretary of State is prepared to award a licence, it will be offered on condition that, within 14 working days of the date on which the Secretary of State makes the offer, the applicant;
