00427/0089	Rosemont Pharmaceuticals Limited	Temazepam Elixir 10 mg/5 ml	Temazepam BP 10-0 mg	Temazepam Elixir is indicated for the short term treatment of sleep disturbances considered severe or	26th September 1995
				disabling or where insomnia is subjecting the individual to	
				extreme distress. This product is especially useful in those patients	
				for whom particularly rapid onset of hypnotic action is required and	
				for whom the persistence of hypnotic effect after rising would	
				be undesirable. Temazepam is particularly suitable for patients	
				with transient sleep disorders in whom the re-establishment of	
				normal sleep patterns is expected following the resolution of	
				precipitating factors. It is also indicated for pre-medication for	
				minor surgical and investigative procedures, especially in the case	
				of out-patients. Prescription Only Medicine
