**ENVIRONMENT PROTECTION ACT 1990, SECTION 15(3)(a)**

Notice is hereby given that an inspector, instructed by The Secretary of State for the Environment, will attend, at The Council Chamber, South Gloucestershire District Council, Thornbury, on Wednesday, 28th August 1996, at 10 a.m., to hold a formal hearing into the appeal by ICI Chemicals & Polymers Ltd, against the decision of Her Majesty's Inspectorate of Pollution, to impose conditions in an authorisation to operate a prescribed process under the Act, namely a chemical process on this site, namely ICI Fertilizers, Severnside Fertilizer Works, Hallen, Bristol.

*S. Carter*, an Assistant Secretary in the Planning Inspectorate. (Ref. E1372/01/PINS.) (2 SI)

**WATER INDUSTRY ACT 1991, SECTION 18**

The following enforcement Order affects consumers of South Staffordshire Water plc, in parts of the Sutton Coldfield, Cannock, Cheslyn Hay, Newborough, Tutbury, Fradley, Rolleston, Stretton, Findern, Repton and surrounding areas, in zones supplied by Bourne Vale, Fradley, Slade Heath/Somerfield and Pipe Hill Water Treatment Works.

South Staffordshire Water plc has failed to carry out sufficient investigations to determine whether additional treatment at Bourne Vale and Pipe Hill would achieve a significant reduction in lead concentrations. Review of more recent monitoring data by the Drinking Water Inspectorate had identified that there is a risk that water in zones supplied from Slade Heath/Somerfield and Fradley may exceed the standard for lead. Following subsequent investigations by the company, the Secretary of State now requires the company to install and operate treatment at Bourne Vale and Slade Heath/Somerfield by 31st October 1996. The Secretary of State also requires the completion of investigations at Fradley and Pipe Hill by 31st October 1996 and, where a significant reduction in lead concentrations can be achieved, completion of the installation and operation of suitable treatment by 31st January 1997.

At all times the water from these supplies has been and remains safe to drink.

**SOUTH STAFFORDSHIRE WATER PLC**

*Enforcement Order—Section 18 of the Water Industry Act 1991*

Whereas The Secretary of State for the Environment "the Secretary of State" is the relevant enforcement authority for the purposes of Sections 18(6) and 19(2) of the Water Industry Act 1991, "the 1991 Act" and Regulation 24 of the Water Supply (Water Quality) Regulations 1989 "the 1989 Regulations".

At all relevant times until 25th November 1991, the South Staffordshire Waterworks Company, ("the Waterworks Company"), held an appointment as a water undertaker under the Water Act 1989.

With effect from 25th November 1991, South Staffordshire Waterworks Company became South Staffordshire Water plc, ("the Company") and the latter became responsible for discharging all the outstanding obligations of the South Staffordshire Waterworks Company as a water undertaker.

South Staffordshire Water plc, now holds an appointment from the Secretary of State as a water undertaker under Chapter I of Part II of the Water Industry Act 1991.

The company is thereby subject to the requirement to perform duties imposed by, or under, any enactment placed on such undertakers by Section 6(2)(a) of the 1991 Act.

Section 68(1)(a) of the 1991 Act places a duty on any water undertaker when supplying water to any premises for domestic or

food production purposes to supply only water which is wholesome at the time of supply.

Regulation 3 of the Water Supply (Water Quality) Regulations 1989 prescribes, for the purpose of determining the wholesomeness of water supplied to premises for drinking, washing, cooking or food production purposes, requirements as to the concentration or value of elements, organisms or substances in the water.

Regulation 24 of the 1989 Regulations requires that where there is a risk ("the prescribed risk") that water after leaving the water undertaker's pipes may contain more than the prescribed level of lead, the water undertaker shall treat the water so as to eliminate that risk or reduce it to a minimum. This requirement does not apply if treatment is unlikely to achieve a significant reduction in the concentration of lead, if the prescribed risk only applies to an insignificant part of the water supply zone in question, or if treatment is not reasonably practicable.

On 23rd January 1990, the Secretary of State accepted an undertaking from the Waterworks Company under section 20 of the Water Act 1989, now section 19 of the 1991 Act, "the Undertaking", concerning investigation, works and measures to be carried out by the Waterworks Company to deal with the risk of exceeding the prescribed concentration of lead in water supplied by the Waterworks Company.

By the Undertaking, the Waterworks Company undertook:

- (i) to carry out, or to secure the carrying out of, a number of works and measures by given dates; or
- (ii) forthwith to deliver to the Secretary of State a proposed new undertaking with revised dates if unable to secure completion of required works for reasons outside its control or where engineering or other advice made modifications of such works expedient.

Specifically, by the Undertaking accepted on 23rd January 1990, the Waterworks Company undertook in respect of all zones to take the following action by given dates:

<i>Identify zones where</i>	<i>Completion date</i>
(i) the prescribed risk relates to an insignificant part of the zone	31st December 1991
OR	
(ii) treatment is not reasonably practicable	31st December 1992
AND	
(iii) for all zones not so identified investigate potential treatment methods to determine whether the prescribed concentration can be achieved	31st December 1992
AND	
(iv) in the light of these investigations install treatment plant where appropriate.	31st December 1995

For all zones, therefore, where the prescribed risk did not relate to an insignificant part of the zone and where treatment was reasonably practicable, the Company should by 31st December 1992, have identified potential treatment methods to determine whether the prescribed concentration can be achieved.

(13) For all zones where the installation of treatment was appropriate as a result of such investigations, then installation should have been completed by the Company by 31st December 1995.

In respect of the following zones where:

- (i) the prescribed risk does not relate to an insignificant part of the zone; and
- (ii) treatment is reasonably practicable

the Company had not as at 2nd April 1996, investigated potential treatment methods as required by Step (iii) of the Undertaking accepted on 23rd January 1990:

<i>Zone</i>	<i>Relevant Water Treatment Works</i>
Sutton Boreholes (City)	Bourne Vale Pipe Hill

No proposed revised undertaking concerning plumbosolvency has been submitted by the Company to the Secretary of State since 23rd January 1990.

On behalf of the Secretary of State, the Drinking Water Inspectorate has reviewed additional data presented within a report provided by the Company under cover of a letter of 11th January 1996. The Drinking Water Inspectorate is satisfied that the report established that there is a risk, not identified by the survey carried out between 7th March 1990, and 30th June 1991, or otherwise by the Company, that four water supply zones would cease to comply with

the requirements of Part II of the 1989 Regulations after leaving the Company's pipes by reason of the presence in the water of a concentration of lead which exceeds the prescribed concentration and which is attributable to the fact that lead is a major component of service pipes. The water supply zones are:

Zones	Relevant Water Treatment Works
Somerford/Slade Heath (East)	Slade Heath/Somerford
Seedy Mill (Outwoods)	Fradley
Seedy Mill (Trent Valley)	Fradley
Seedy Mill (Findern)	Fradley

The Company has as at 24th July 1996, determined by the use of plumbosolvency rig tests that the installation of treatment at the sights given below is likely to achieve a significant reduction in the concentration of lead in the water after leaving the Company's pipes. The sites are:

Somerford/Slade Heath  
Bourne Vale.

Now therefore The Secretary of State makes this final enforcement Order under section 18(1) of the 1991 Act for the purpose of securing compliance with the Undertaking accepted from the Waterworks Company on 23rd January 1990, and with Regulation 24 of the 1989 Regulations.

The Company is hereby required to install, commission and operate at the sights given below such treatment plant as would be likely to achieve a significant reduction in the concentration of lead in the water after leaving the Company's pipes in zones receiving water from those sites.

Site	Commissioning complete
Somerford/Slade Heath	31st October 1996
Bourne Vale	31st October 1996

The Company is hereby required to determine by use of plumbosolvency rig tests, by the dates specified below, whether the installation of treatment at the sites given below is likely to achieve a significant reduction in the concentration of lead in water after leaving the Company's pipes:

Site	Determination complete
Fradley	31st October 1996
Pipe Hill	31st October 1996

Wherever the results of the rig tests required to be carried out by the preceding paragraph so determined, the Company is further required to install, commission and operate such treatment as would be likely to achieve a significant reduction in the concentration of lead, by the following dates:

Site	Commissioning complete
Fradley	31st October 1997
Pipe Hill	31st October 1997

This Order shall take effect on the day after it is made.

*M. Rouse*, Chief Inspector of Drinking Water  
30th July 1996. (3 SI)

(Modification of Waiting Limit) Order 1996*

Notice is hereby given that Vale Royal Council in pursuance of arrangements made under section 101 of the Local Government Act 1972 with Cheshire County Council hereby propose to make an Order under sections 1 and 124 of and Part IV of Schedule 9 to the Road Traffic Regulation Act 1984, as amended by the Local Government Act 1985.

The effect of this Order will be to modify Paragraph 5 and the Second Schedule of the Vale Royal District Council (Castle Street and Adjoining Streets, Northwich) (Prohibition and Restriction of Waiting) Order 1987, which limits waiting time between the hours of 8 a.m. and 6 p.m. Monday to Saturday inclusive to 20 minutes in any one hour on the east side of Castle Street from a point approximately 82 metres south of its junction with Town Bridge in a southerly direction for a distance of approximately 102 metres to a point 41 metres north of its junction with Chesterway.

Paragraph 5 of the Second Schedule of the above mentioned 1987 Order had been introduced to deter long term parking and increase turnover of the parking spaces outside shops in Castle Street. Several of the businesses have since closed or demolished, and therefore this same restriction no longer needs to apply. It has been decided that waiting will be limited to 1 hour, return prohibited within 1 hour.

Full details of these proposals are contained in the draft Order which, together with a map showing the length of road affected and

a statement of the Council's reasons for proposing to make the Order and a copy of the above mentioned Order of 1987 may be examined at the offices of Vale Royal Borough Council at Wyvern House, The Drummer, Winsford, Cheshire during the normal office hours.
