Notice is hereby given, pursuant to Schedule 10 of the Water Resources Act 1991 (as amended by the Environment Act 1995) that the following applications have been made to the Environment Agency by Wessex Water Services Ltd. The applications refer to the transfer of sewage from Bossington, Porlock Weir and Porlock for treatment at the proposed Sewage Treatment Works at Porlock and discharge to Porlock Bay, Somerset.

The proposed sewage treatment works will treat to a secondary standard and produce a disinfected effluent by use of an innovative membrane filtration treatment process. Storage will be provided to retain storm flows and avoid discharge through the outfall when it is exposed at low tides.

Storm/emergency discharges from the Sewage Treatment Works will only operate following excessive rainfall or during unavoidable mechanical breakdowns. These will be discharged through the same

outfall or to a neighbouring watercourse if there is a combination of exceptional high tides and extreme weather conditions. All flows will be screened before discharge.

The continuous discharges at Bossington and Porlock Weir will be eliminated. The existing outfalls will be used as storm and emergency discharges from the pumping stations that will transfer flows to the new Sewage Treatment Works. These will only operate following excessive rainfall or during unavoidable mechanical breakdown.
