00101/0500	Novartis Pharmaceuticals UK Limited	Lioresal Intrathecal Injection 50 Microgramas/1 ml	Baclofen EP 0.05 mg	Lioresal Intrathecal is indicated in patients with severe chronic spasticity of spinal or cerebral origin (associated with injury, multiple sclerosis, cerebral palsy) who are unresponsive to oral baclofen or other orally administered antispastic agents and/or those patients who experience unacceptable side-effects at effective oral doses. Lioresal Intrathecal is not recommended for use in patients under 18 years of age with spasticity of spinal origin due to limited clinical experience in this age group. In patients with spasticity due to head injury a delay of at least one year before treatment with Lioresal Intrathecal is recommended, to allow the symptoms of spasticity to stabilise. Lioresal Intrathecal may be considered as an alternative to ablative neurosurgical procedures. Prescription Only Medicine	21st September 1997
00101/0501	Novartis Pharmaceuticals UK Limited	Lioresal Intrathecal Infusion 10 mg/20 ml	Baclofen EP 10.00 mg	(See PL00101/0500) Prescription Only Medicine	21st September 1997
00101/0502	Novartis Pharmaceuticals UK Limited	Lioresal Intrathecal Infusion 10 mg/5 ml	Baclofen EP 10.00 mg	(See PL00101/0500) Prescription Only Medicine	21st September 1997
