Madrid, June 7. Some Days ago the Court removed from Segovia to the Escorial. Letters from Cadiz advise, that the Squadron designed for the Levant, consisting of 12 Men of War and four Frigates, will be ready to put to Sea the Middle of this Month. This Court having lately sent to forbid Sig. Aldobrandi, the Pope's Nuncio, to enter Spain, did at the same Time dispatch a Courier to the Pope to acquaint him with the Reasons of that Prohibition: That Courier is come back, and the Pope having complied with some Demands of this Court, Notice is sent to the Nuncio, who stays on the Frontier, that he may now come; and he is expected here in a few Days.

Berne, June 12. The Chancellor of this State is returned from Buren, whither he was sent lately on the Part of this Canton to confer with a Minister of the Bishop of Porrentru upon the Affair of Neuveville, which has been so long in Dispute between this State and the Bishop, and that Matter is now in a fair Way of Accommodation, that Prelate having given up most of the Points he has hitherto insisted upon. The French Ambassadour at Soleurre has paid to

each Canton one Year's Arrear of Pension; and the Deputy of this Canton, which went thither some Days ago to receive the Money, is returned. Letters from Savoy give an Account of the Arrival of the King of Sicily and the Prince of Piemont at Chambery, and that the Queen was expected there as soon as her Health would permit: That the King upon his Arrival had made several Alterations, that he had suppressed the Chamber of Accounts, and had appointed Intendants, as in France, through all the Districts of Savoy.

Vienna, June 9. The Imperial Army in Hungary has not yet made a y Motion: But the last Letters from Prince Eugene have put us in Expectation that he will very soon attempt to pass the Danube, which must necessarily be done before the Siege of B grade or any other Enterprize can be formed. Prince Maximilian, the d Son of the Landgrave of Hesse-Cassel, arrived here last Night; but the Regiment of 2300 Men which his Father sends under his Command to serve in Hungary, will not be there till the 20th Instant: This Prince is to be made a Lieutenant General.

Brussels, June 19. This Morning the Marquis de Prié received Letters by a Courier, who left Vienna the 10th Instant, advising, that Prince Eugene of Savoy was to march the 9th with the Imperial Army from the Camp at Futack, and to be joined by the Body under the Command of Count Mercy; that on the 15th his Highness designed to pass the Danube near Semendria, below Belgrade, under Cover of several Ships of War; that it was generally believed the Turks are not in a Condition to oppose his Passage, but in Case they should attempt it, 'tis said that Prince has 80 flat-bottomed Boats which were built last Winter at Ratisbonne, each of them large enough to carry 200 Men, sufficiently covered by Planks and Woolbacks from the Fire of small Arms. In these the Prince can carry over a Body of 16000 Foot, with which he proposes to take Post under Cover of the Cannon of the Ships of War, and to make a Bridge for the Passage of the whole Army, which 'tis said consists of 50000 Horse and Dragoons, and 70000 Foot, besides the Hungarians, Rascians and Wallachians, who together make above 20000 Men. The Marquis has also received a Letter of the 14th from Prince Kourakin at Paris,
