Electricity

Office of Gas and Electricity Markets

NOTICE UNDER SECTION 11(2) OF THE ELECTRICITY ACT 1989

The Director General of Electricity Supply (hereinafter referred to as "the Director") pursuant to section 11(2) of the Electricity Act 1989 (hereinafter referred to as "the Act") hereby gives notice as follows:

1. He proposes to modify the conditions of the public electricity supply licence granted to Southern Electric plc ("Southern") under section 6(1)(c) of the Act by inserting new Conditions 2A (Restriction on activity and financial ring fencing), 2B (Availability of resources) and 2D (Credit rating of Licensee) and by amending Conditions 1 (Interpretation), 27 (Disposal of relevant assets) and 28 (Provision of information to the Director).

2. The effect of these modifications is:

- (a) with limited exceptions, to restrict Southern's business to the supply and distribution of electricity;
- (b) to restrict the extent to which Southern may hold shares in other companies within its group of companies;
- (c) to require Southern to act in a manner calculated to secure that it has sufficient management and financial resources to carry on its supply and distribution businesses;
- (d) to require Southern to give an annual certificate as to the adequacy of its financial resources;
- (e) to require Southern to use all reasonable endeavours to maintain an investment grade credit rating for its corporate debt;
- (f) to restrict charging of assets or the provision of other forms of security or financial support save for limited purposes;
- (g) to restrict transactions with other members of its group of companies except on an arms-length basis and on normal commercial terms; and
- (h) to require undertakings from its holding company that other companies within its group will refrain from action likely to cause Southern to breach its obligations under the Act or the licence, and that other companies in the group will give Southern all information necessary to enable Southern to comply with its obligation to provide information to the Director.

3. The purpose of these modifications is to bring the public electricity supply licence of Southern into the same form as that of the other public electricity suppliers in England and Wales who have merged or otherwise become part of a larger group.

4. The Director proposes to modify the conditions of the public electricity supply licences granted to East Midlands Electricity plc, Eastern Electricity plc, London Electricity plc, Manweb plc, Northern Electric plc, Norweb plc, SEEBOARD plc, South Wales Electricity plc, South Western Electricity plc, Southern and Yorkshire Electricity Group plc under section 6(1)(c) of the Act by amending (or, in the case

of Southern, where appropriate, further amending) Conditions 1 (Interpretation), 2 (Separate accounts for Separate Businesses), 2A (Restriction on activity and financial ring fencing), 2B (Availability of resources), 27 (Disposal of relevant assets) and 28 (Provision of information to the Director); and by either inserting a new Condition 2D (Credit rating of Licensee), or, if that Condition is already included, by amending that Condition.

5. The effect of these modifications is:

(a) to update certain requirements relating to the obligation of the licence holder to prepare accounts in the light of changes in accounting practice;

(b) to place an additional restriction on the businesses which the licence holder can itself carry on in addition to the supply and distribution of electricity by reference to a limit on investment as well as on turnover;

(c) to require the licence holder to obtain undertakings as to compliance with licence conditions and the provision of information from any ultimate holding company (as defined) of the licence holder;

(d) to restrict the payment of dividends or the making of other distributions by a licence holder unless the licence holder has issued a certificate to the Director confirming that the licence holder is, and will remain, in compliance with specified licence conditions;

(e) to impose a requirement on the licence holder to use reasonable endeavours to maintain an investment grade credit rating for its corporate debt, or for those licence holders already subject to this requirement, to make an amendment to the wording of that requirement;

(f) to place further limitations on the extent to which the licence holder can give charges or provide financial or other support for non-electricity businesses; to impose additional requirements that transactions entered into with affiliates or related undertakings of the licence holder shall be on an arm's-length basis and on normal commercial terms; and to incorporate restrictions on the extent to which a licence holder can incur "cross-default" liability arising from default by affiliates or others (other than by controlled subsidiaries carrying on business for a permitted purpose of the licence holder).

6. The purpose of these modifications is, so far as practicable, to protect the electricity businesses of the licence holder and the assets of those businesses from being put at risk by non-electricity activities, to ensure the licence holder is able to finance its electricity activities, and to extend the obligation of the licence holder to obtain undertakings from the main group holding company to certain other holding companies which may be in a position to exercise control or influence over the licence holder.

7. The Director proposes to modify further the conditions of the public electricity supply licences granted to East Midlands Electricity plc, London Electricity plc, Northern Electric plc and SEEBOARD plc under section 6(1)(c) of the Act by amending Condition 2C (Change of accounting date).

8. The purpose and effect of this modification is to ensure that the reference in Condition 2C is to the revised version of Condition 2A introduced by modification 4 above.

9. The Director proposes to modify further the conditions of the public electricity supply licence granted to Eastern Electricity plc (hereafter "Eastern") under section 6(1)(c) of the Act by amending Conditions 1 (Interpretation), 2 (Separate accounts for Separate Businesses) and 6 (Restriction on own generation capacity), and by inserting a new Condition 2C (Change of accounting date).

10. The effect of these modifications is:

(a) to require that the generation business of Eastern shall be held by an affiliate in which Eastern has no shareholding interest, and

(b) to authorise Eastern, with the consent of the Director, to change the date to which its statutory accounts are made up.

11. The purpose of these modifications is:

(a) to bring Condition 6 in the public electricity supply licence of Eastern into the same terms as those proposed for East Midlands Electricity plc, London Electricity plc, Southern and Manweb plc, and (b) to enable Eastern, for licence purposes, to make up its statutory accounts to the same date as other companies within its group of companies.

12. The Director proposes to modify further the conditions of the public electricity supply licence granted to Manweb plc (hereafter "Manweb") under section 6(1)(c) of the Act by amending Conditions 1 (Interpretation), 2A (Restriction on activity and financial ring fencing), and 6 (Restriction on own generation capacity).

13. The effect of these modifications is to require that the generation business of Manweb shall be held by an affiliate in which Manweb has no shareholding interest and to remove Manweb's generation business from the category of "permitted purpose" for which Manweb may provide investment, security or financial support.

14. The purpose of these modifications is to bring Manweb's public electricity supply licence into similar form as that of other public electricity suppliers which are part of a group incorporating substantial generation interests.

15. The Director proposes to modify further the conditions of the public electricity supply licences granted to East Midlands plc (hereafter "EME"), London Electricity plc and Southern under section 6(1)(c) of the Act by amending Conditions 1 (Interpretation), 2A (Restriction on activity and financial ring fencing) and 6 (Restriction on own generation capacity) and by inserting a new Condition 6A (Restrictions relating to embedded generation).

16. The effect of these modifications is:

(a) to require that the generation business of the licence holder shall be carried on by an affiliate in which the licence holder has no shareholding interest;

(b) to remove the generation business of the licence holder from the category of "permitted purpose" for which the licence holder may provide investment, security or financial support; and

(c) to impose restrictions on the construction, operation or ownership by the licence holder or its affiliates and related undertakings of generation plant embedded in the distribution system of the licence holder.

17. The purpose of these modifications is to increase the financial and operational separation of the generation business of the licence holder from its supply and distribution businesses in accordance with assurances given to the Secretary of State in relation to mergers entered into by these licence holders.

18. The Director proposes to modify further the conditions of the public electricity supply licences granted to EME and Southern under section 6(1)(c) of the Act by inserting new Condition 12A (Requirement to facilitate competition in generation and supply).

19. The effect of this modification is to require the licence holder to conduct its distribution business so as to facilitate competition in the generation of electricity and competition in the supply of electricity in its authorised area.

20. The purpose of this modification is to assist in securing that the distribution business of the licence holder is carried on on arm's-length terms from its supply and generation activities.

21. The Director proposes to modify further the conditions of the public electricity supply licence granted to Yorkshire Electricity Group plc by amending Conditions 1 (Interpretation) and 2 (Separate accounts for Separate Businesses) and by inserting a new Condition 2C (Change of financial year).

22. The effect of these modifications is to authorise the licence holder, with the consent of the Director, to change the date to which its statutory accounts are made up; and its purpose is to enable the licence holder, for licence purposes, to make up its statutory accounts to the same date as other companies within its group of companies.

23. A copy of the proposed modifications can be obtained (free of charge) from the Office of Gas and Electricity Markets. Any representations or objections to the proposed modifications may be made on or before 13 September 1999 to the Director at the Office of Gas and Electricity Markets, Hagley House, 83-85 Hagley Road, Edgbaston, Birmingham B16 8QG, for the attention of David Smart.

A. J. Boorman,
Deputy Director General of Electricity Supply,
