Madrid, January 10.

ON the 6th Instant the Courier returned who had been dispatched to Rome, for the Pope's Bulls to qualify Cardinal Alberoni to hold the Archbishoprick of Seville. He brought back the Opinion of the College of Cardinals, that those Bulls could not be issued, conformably to the Holy Canons, before Proof was made by an Instrument passed in due and legal Form, that Cardinal Alberoni had actually renounced the Bishoprick of Malaga to which he was first promoted. Whereupon such an Instrument having been executed, was sent away Yesterday by another Express. We have Advice from Cadiz, that assoon as the Intendant Patino arrived there, he gave Orders for delivering all the Effects brought by the last eight Ships from New Spain, to the Persons concerned, deducting only 5 per Cent. for the Indulto on Silver, 1 and an half per Cent. on Gold, and 8 per Cent. on other Goods. The Remittances which were ready to have been made to Holland, for some Ships of War that were ordered to be bought there, are stopt; because of certain Difficulties newly risen, which have obstructed the Contracts that were making for those Ships. 'Tis advised from Barcelona, that a considerable Number of Water-Casks for Shipping are providing there, as also abundance of Mangers and other necessary Accommodations for carrying Horses by Sea; and 'twas reported, that a good Number of Troops is to be transported from thence to Sardinia, which Island is designed for a Place of Arms, in Case the War be carryed further. On the 2d Instant the Conde de Salvatierra put on his Hat in the King's Presence as Grandee of Spain, on which Occasion there was a general Appearance of the Grandees.

Copenhagen, Jan. 11. Last Week arrived here from Holstein, several Waggoners with Money, amounting in all to

130000 Rixdollars. Which Sum is to be made use of for paying the Troops. 'Tis thought very lucky that this Money was collected in Holstein before the Inundation, which has ruined the finest and richest Part of that Country; as also that the Cavalry which had long been quartered there, were by the King's Order come over to this Island a little before. 'Tis computed that the King will lose this Year, and perhaps the next succeeding Year or two, 300000 Rixdollars of his Revenue in Holstein, besides the Expence of repairing the Dykes, and enabling the Peasants to settle again in that Part of the Country which was overflowed. We have had no Advices from Norway since the 18th of last Month. The Transports laden with Provisions for that Country will sail from hence in a few Days, with the Baggage of several General Officers who are already set out to go by Land as far as Flastrand.

Berne, Jan. 19. The Conferences at Baden about the Affair of St. Gall go on with Success. Those who are there on the Part of the new Abbot and Chapter were for making a fresh Treaty; but the Deputies of the two Cantons having declared to them, that they could not by their Instructions proceed upon any other Foot than that of the old Convention of Roschach, those of St. Gall acquiesced in it and produced their Grievances, so that now this Matter is in full Negotiation, and has a fair Appearance of being soon brought to a happy Conclusion. It is said Commissions have been sent from France for buying 2000 Horses in this Canton, and 1000 more at Lucern for remounting their Cavalry. The Officers of this Canton, who are in the Service of France, have likewise demanded Permission to raise Recruits here for their Companies, which has been granted.

Paris, Jan. 22. The six Deputies from the Parliament of Britany are arrived here, and four Counsellours of the same Parliament
