WE have Advice from Cadiz, that the Intendant Sig. Varas having Information privately given him, that a considerable Sum in Pieces of Eight was concealed on board the Admiral of the Flota, and had not been registred, he caused strict Search to be made, and it was found and seized. This having alarmed several Persons who had unregistred Silver concealed on board the Flota, they went before the proper Officer at Cadiz, and declared the Value of what they had so concealed, desiring to be allowed to pay the same Indulto for it as for the registred Effects. There has been another Insurrection of the Populace at the Havana: The Occasion was this, The General of the Flota sent Order to the Bishop of that Place to imbark for Spain, to give an Account of his Behaviour in the Time of the Commotion raised there last Year, when the Farm of Tobacco was designed to be established for the King's Account. But the Council, as also the new Governour and the Officers, interceding that the Bishop might not be carried off till his Majesty's Pleasure were further known, he was allowed to stay, and the People returned to their Obedience. The President of the Crusada is put at the Head of the Tribunal of the Inquisition, to supply the Room of the Inquisitor-General Molines during his Confinement. 'Tis said the Marquess of Pozzobuono, who was Governour of Portolongone, is nominated by his Catholick Majesty to go to Sweden, as his Minister and Plenipotentiary.

Venice, Sept. 9. Sig. Diedo being chosen Dean of the Ducal Church of St. Mark, made his publick Entry on the 5th Instant, and took Possession of that Dignity: The same Day came in a Man of War, having on board General Sala and other Officers, who came from Corfu. On Wednesday arrived a Ship in 18 Days from Corfu, the Master of which reports, that the Day before his Departure one of the largest Spanish Men of War, and another of the third Rate, came into that Port. We have Advice from Zant, that the Fleet of this Republick was arriv'd there, and that some of the Ships were pretty much damaged in the Engagement with the Turks, in which about a Thousand Men were lost on our Side: The same Letters say, that the Turkish Fleet having been much shattered in that Engagement, had put into the Bay of Coron to refit. Sig. Ruzzini, who assisted in the Congress at Passarowitz, as Ambassadour Plenipotentiary of this State, is nominated by the Senate to go Ambassadour Extraordinary to the Ottoman Porte.

Vienna, Sept. 10.
