Constantinople, November 19.

THE Court arrived here from Adrianople about three Weeks ago, to the great Satisfaction of the Inhabitants of this City, who suffered much by its Absence. A Druggerman from Poland, who arrived at Adrianople some time ago, followed the Court hither, and took upon him the Character of Consul; but as the Port has never yet allowed the King of Poland to keep any publick Person here in constant Residence, they have sent him away again, and the rather because he demanded to be defrayed by the Grand Signior. It was formerly advised from hence, that the Waywod of Walachia, who was taken Prisoner by the Germans in the late War, was promised to be reinstated in that Principality; but since that, his Brother, who officiated in his Room during his Imprisonment, has by his Intrigues got himself confirmed. The Dutch Ambassador arrived here from Passarowitz some Weeks ago. The Turkish Fleet is come into Port.

Venice, Jan. 14. On the 8th Instant arrived here the two Men of War called the Triumph and Madonna della Salute, commanded by the Captain Extraordinary of the Fleet Sig. Diedo, who has been very ill of a Fever, but is in a Way of Recovery. He is gone with all his Domesticks, Officers and Passengers, to the old Lazaretto, to perform Quarantain; the Corps of the late Captain General Pisani is also deposited there for the present. On the 10th Instant in the Morning was performed in the Church of Madonna della Salute, the Ceremony of Offering to the blessed Virgin, and hanging up near the High Altar, a Turkish Standard and Horse-Tail, given by the Family of Pisani to that Church. The same Morning the Carnival was opened by Order of the Senate, in the usual Manner, the carrying of Arms privately being forbidden under the most rigorous Penalties. About 1000 Soldiers, Grisons and Swiss, who had performed Quarantain at the Lido, were Yesterday em-

barked to be transported to Verona, where they will be disbanded and sent home. On the 8th Instant General Schuylenburg went from hence to view the Garrisons of Verona and Brescia; and after he has made a Reform among the Cavalry, he is to return hither about the End of this Month. It is advised from Corsu, that by Order from hence the Intendant of the Magazines there has been put under Arrest, for Frauds committed in the Discharge of his Office; also four Captains of Men of War there are put under Confinement, for having clandestinely sold the publick Stores. Last Sunday Evening an Earthquake was felt in this City, by which some Chimneys were thrown down, but no other Damage was done; The Shuck was most felt at the Opera and Play-House, where the Performers and Actors let fall the Curtains, and the Company ran out. We have since Advice from Friuli, that the Earthquake was more violent there than in other Parts, having thrown down several Churches and Houses.

Leghorn, Jan. 13. Since Sir George Byng ordered some Frigates to cruize upon this Coast, the Spanish Privateers have disappeared, and we have not heard of their taking any Prizes of late. Several British Merchant Ships are safely arrived here this Week. We have Advice, that the three Regiments of Imperial Infantry of Wirtemberg, Traut and Holstein Beck, continue their March through the Ecclesiastical State for Naples.

Brussels, Jan. 21. M. Steinghens, Privy-Counsellour to the Elector Palatine, who formerly resided at London, being made Intendant of the Lordship of Rouffelaet, and of the District of Winnendale in Flanders, is come to reside in this Town, with the Character of Envoy from his Highness the Elector Palatine. The Deputies of the States of Flanders, who came hither to make a Representation on some Affairs relating to the Barrier Treaty, will have their Audience of Leave of the Marquis de Prié on the 28th Instant. Yesterday the Garrisons of the chief Fortified Places in these Provinces, began to march, in order to be changed, and to relieve each other, viz. the Regiment
