Elstid T of a Letter from Coant Colloredo Governour of the Milaneze, to the Earl of Stair, His Majefly's Ambaffadour at the Court of France.

Milan, August 12. N. S. Have received from General Zumjungen a Letter dated the 24th of July from the Camp before Mcsina, in which he acquaints me, that he had decamped from Francavilla without the Lofs of one Man, the Enemy not da-ring- to make the least Motion to incommode his Rear Guard: That in his March he had taken la Forza and St. Alefilo, very advantageous Pofts, and left Garrifons in them : That he had not thought proper to flop to take Scaletta, but advanced to Mcf-ling: That the Inhabitants of Meflina had at first shewn some Inclination to submit to him, but hafhewn fome Inclination to fubmit to him, but ha-ving Been earneftly prefied by the Governour to hold out, and having received from Palermb a Sup-ply of Provisions, of which they were in extreme Want, they pretended to make Refiftance: That he was preparing to bombard the Town, in cafe they fhould remain on the Defensive; but was of Opi-nion they would not obfinately persift: That the Generals Count Wallis, and the Prince of Hesse, were carrying on the Attack of Castle Gonzaga: And that General Mercy was expected from Respin And that General Mercy was expected from Reggio to refume the Command of the Army.

From the Camp before the Cafile of St. Sebaftian, August 17, N.S. On the 1rth Instant 750 French, among them two Companies of Grenadiers, commanded by the Chevalier de Givery, Major-General, and M. la Motte, Brigadier,-were imbarked at Port Paffage, on feveral Transports, under the Convoy of Oaptain Johnson, commanding the British Men of War, which have their Station on this Coaft; and Collonel Stanhope, His Britannick Majefty's Envoy, went on Board, to be prefent in an Enterprize de-figned on San Antonio. They fet Sail that Afternoon, and the next Evening arrived before San Antonio. The Harbour being narrow at the Entrance, and having Breaftworks caft up from theirce along the Sides to the Town, with near 50 Pieces of Cannon placed upon them, it was thought advifable not to attempt going into it, but, rather to endeavour to land upon the Back of it in a fandy Bay to the Weft-ward of the Harbour. Upon getting thither it was feen the Enemy had raifed two Batteries, behind which they had about 600 Men drawn up to oppofe the Landing of Troops. The Cannon of the Brieff Shipsfird upon them for fome Time, as the Batteries did alfo upon the Ships, to which they did no other and the next Evening-arrived before San Antonio. did also upon the Ships, to which they did no other Damage than the tearing two or three of the Shik. That Place being at the Bottom of the Bay of Bifcay where the Sea conftantly runs high, there were very great Swells, which made the Waves break with very great Swells, which made the Waves break with Violence upon the Shore: However, at Six a Clock it was determined to put the Troops into the Boats, and try if it was possible to land them there; but when they were got near the Shore it was judged extremely hazardous, if not impracticable; they therefore put off again, and went about a Mile fur-ther to the Weft into another leffer Bay where the Sea appeared to be formewhat furother. The Enemy not expeding them in that Place the Force intradicte. appeared to be formewhat fmoother. The Bnemy not expecting them in that Place, the Forces immediately landed without Oppolition or Lofs, except of four or fire Scamen drowned, and three Boats overfet, all the Officers and Soldiers getting fafe aftore. It be-ing aben almost dark, they immediately made them-felves Masters of the Pop of a Hill, which is covered regith thick Wood and lies Between the rung Raps

had left even the Forts upon the Harbour without one Man to defend them. From thence the Forces marched through the Town fireight to the Harbour, where were in two Forts and upon the Mole 47 Pieces of Gannon all loaded, which were defiroyed by burfting a great Part, and nailing the reft. Then the Forces went to the Ship-Yards, where lay on the. Stocks three Men of War, one of yo Guns, the other 's of the 's two of so Guns each; the first was decked and want. ed very little to be launched, the other two were-not altogether fo forward, though they were quite built up but not decked. These three Ships were intirely burnt to the very ground by the English Sea-men; they also burnt a vaft quantity of the fineft-Planks newly brought from Holland, sufficient for what could be employed in the Building of five or fig Men of War. There were also a great many Bar-rels of Pitch and Tar; which with some other Nayal Scarce mere burnt is order to for a great of the source of th Stores were burnt, in order to set on fire a great Stores were burnt, in order to fet on fire a great Quantity of fine Timber that was provided for the Building of more Ships. Having thus effectually execu-ted what was propoled by this Expedition, the Forces imbarked again the fame Evening, and arrived here at the Camp Iaft Night, with no other Lofs than what is above-mentioned. Collonel Stanhope finding it neceffary to encourage and animate Troops which had not been ufed to Enterprizes by Sea, was the first that leaped into the Water when the Boats ap-proached the Shore. Captain Johnfon and the other Commanders of the British Men of War, were very zealous and active on this Occasion. In the River very zealous and active on this Occasion. In the River of San Antonio were found two Dutch Ships lately come thither, one loaded with Powder, which had been fent to Pampelona, and the other had broughr Naval Stores; Men were fent on board them, but found nothing, every thing baving been landed fome Days before. As to the Siege of the Caftle of St Sebastian, such Difficulties were found in it, as it was judged, would have inevitably rendered it very tedious; and therefore the Mar(hal Berwick had actually refolved to turn it into a Blockade > But this Afternoon we were agreeably furprized with the Governour of the Caftle's offering to capitulate -The Articles are already fettled, by which all Marks of Honour are granted to the Garrilon; and the Prince de Soubize is dispatched to the Gourt of France with the News of the furrender of the Caftles
