### NOTICE OF REVISION TO THE NATIONAL TERMS OF CONNECTION

DCUSA Ltd whose registered office is situated at 2-3 Golden Square, Ground Floor, Grafton House, London W1F 9HR, hereby gives notice of a revision to the National Terms of Connection (NTC). The NTC set out rights and duties in relation to the connection at which a network operator delivers electricity to, or accepts electricity from, a home or business. The revision will be made to section 3 of the NTC and implemented in the DCUSA on 5 November 2015. As a result, only Current Transformer (CT) metered customers, such as large factories or superstores, are affected by the change.

The change addresses the issue of under-use of capacity and over-use of capacity by formalising a procedure for cases where the customer exceeds its Maximum Import Capacity (MIC) or Maximum Export Capacity (MEC). It clarifies the rights for the Distributor to take appropriate action against persistent over-use of capacity (including fitting current-limiting equipment and, in some circumstances, allowing recovery of the costs of doing so). It also clarifies the rights for the Distributor to take appropriate action in cases where the customer does not use some or all of the MIC or MEC reserved for its connection. The rights differ for cases of energised sites or de-energised sites.

If you want a copy of the NTC or have any questions about it, please write to Energy Networks Association, 6th Floor, Dean Bradley House, London SW1P 2AF or see the website at [www.connectionterms.co.uk](http://www.connectionterms.co.uk) (2426072)
