Mitigation features / measures		Appropriate controls in place to reduce the likelihood of accidental events and agreement was given to the issue of consent, providing increase is as specified in the application.		

Having regard to the relevant application(s) for direction(s) submitted under the above Regulations, the Secretary of State has assessed the project(s) as not likely to have a significant effect on the environment and has given a direction that the application for consent under the Petroleum Act 1998 need not be accompanied by an environmental statement. The main reasons and considerations on which this decision is based are summarised above and have taken full account of the characteristics of the project, the environmental sensitivity of the areas likely to be affected by the project and the nature and significance of the potential impacts, as set out in Schedule 1 to the Regulations.

EXCLUDED ACTIVITIES

Pursuant to regulation 5(10) of the above Regulations, the Secretary of State gives notice that, having regard to the matters set out in regulations 5(2) and/or 5(2A) and Schedule 1 to the Regulations, the Secretary of State has decided that the operations in respect of which consent is sought would not be likely to have a significant effect on the environment and accordingly no environmental statement need be prepared in respect of the relevant project.
