Constantinople, October 13. An armed French Bark, of 26 Guns and 200 Men, sailed from Smyrna the 28th of last Month, to convoy a small Fleet of four Ships to Marseilles, and it is reported that they were to be joined somewhere by a Frigate of 50 Guns, and are to go to Malta, where they are to meet others. A French Privateer of 10 Guns and 70 Men, took very lately off Stanchio, a small English Vessel laden with Turks and their Effects, bound for Alexandria; however, they restored to the Turks all their Effects, and set them on Shore. The Captain Bashaw is expected soon back from the Archipelago with his small Fleet of three Frigates and two Gallies. He sailed from Smyrna the 29th past. The Porte has at length received some News from Kars, which they have notified to all the Foreign Ministers in Form, viz. That a Bash Choadar, dispatched by Achmet Bashaw their Generalissimo, was arrived with an Account, that he had repulsed the Shaugh's Army from before Kars, with considerable Loss to the Persians, who had made nine unsuccessful Assaults upon the Place, and that the Turks had made themselves Masters of a Battery of nine Pieces of Cannon which the Shaugh left behind him in his Retreat. They affirm that he is retired to some Distance, and that he is put out of a Capacity of attempting any thing further this Campaign; as well on account of the advanced Season, as by this Advantage gained over him. An Envoy from the Great Mogul is arrived here, and has had Audiences of the Sultan and Vicer. He came Post with about 15 Persons only. His Errand is supposed to relate to the War against the

Persians, against whom his Master is thought to have many Causes of Resentment.

Stockholm, Nov. 2. The Day before Yesterday General Lubras came to the King's Court, but as a Traveller and a private Gentleman: He was presented by the Chambellan in Waiting, and with none of the Ceremonies used at the first Audience of a foreign Minister.
