*Kensington, September 13.*

**T**HE following Address of the High Sheriff, and Grand Jury of the County of Nottingham, having been transmitted to his Grace the Duke of Newcastle, one of his Majesty's Principal Secretaries of State, and Lord Lieutenant of the said County, has by him been presented to his Majesty: Which Address his Majesty was pleased to receive very graciously.

*May it please your Majesty,*  
**W**E your Majesty's most dutiful and loyal Subjects, the High Sheriff, and Grand Jury of the County of Nottingham, beg Leave to approach your sacred Person, with our sincerest Congratulations on the Success of your Majesty's Arms, under the wise and glorious Conduct of his Royal Highness the Duke, in the Suppression of the late desperate and unprovoked Attempt to destroy our most excellent Constitution in Church and State.

This happy Event appears to us in the strongest Light, when we are led by the View of the general Calamities occasioned by the Incurſion of those audacious Disturbers of the publick Peace, to the dismal Prospect of the Loss of our Laws, Liberties and Religion, Blessings the most valuable to Britons, and which we hope long to enjoy under your Majesty's most auspicious Reign.

*Petersbourg, Aug. 12.* On Sunday last Baron Nieuhaus, the Bavarian Minister, had his Audience of Leave of the Empress, and is to set out very soon for his Court. Baron Mardefeldt, the Prussian Minister, was likewise to have taken his Leave of her Imperial Majesty, on Sunday last, but has been prevented by a Fit of the Gout.

*From the Sardinian Camp at Cairo, Aug 31.* N:St The Army, after having halted at Acqui the 26th and 27th, marched from thence on the 28th in the Morning, and arrived here in four Marches, having passed thro' Bassagno, Spingno and Aldelgo. The Marquis de Botta having required six Pieces of Cannon more, 32 Pound Ball, to be employed in the Siege of

Gavi, his Majesty immediately granted them, and they were to set out from Alexandria on the 29th. The four first Pieces of the same Calibre, and the 10 Mortars, which were before sent to him, arrived at Novi on the 27th. The Chevalier Radiati, whom the King had sent to the Imperial Army to be informed of their Motions, returned hither Yesterday. He reports that that Army had begun to move on the 29th, divided into several Corps: The first, consisting of 19 Battalions, commanded by Count Brown, had taken the Rout of St. Christophoro, to go from thence to the Bochetta, to dislodge a Detachment of near 1000 Men, which the Enemy has still there; The second, of 13 Battalions, under the Command of M. Novati, marched to his Left by the Way of Saraval to second him: And the third, of six Battalions, with M. Gorani at their Head, is advanced thro' Isola, to Arbisola: This last Column is detached, and goes directly to Bisegno. Prince Piccolomini, who commands the Siege of Gavi, invested that Place on the 28th with 12 Battalions, and on the 29th he had already fired some Pieces of Cannon and Mortars. M. de Botta, who is not very well, remains at Novi with one Battalion and two Regiments of Dragoons. Advices from Final assure us, that Part of the Spanish Cavalry, with some Infantry, had passed thro' there; that M. Maulebois was at Lezzo, encamped between Savona and Vado with six French Battalions, and one in the Borough of Savona: They have besides, some Posts, facing our Mountain of Monterrat. The Infant Don Philip, who was thought to be at Savona, had embarked at St. Pierre d'Arepa, but perceiving some English Ships, was obliged to disembark at Sestri, where he is at present, and is to go from thence incognito by Land.

*Cairo, Sept. 2, N. S.* This Day at Noon an Officer arrived here, dispatched by the Marquis de Botta to the King, with the agreeable News, that Yesterday Morning the 1st Instant, Count Brown having joined General Novati's Corps, had attacked the Post of the Bochetta, defended by 24 Companies of Grenadiers, and as many Picquets; that, after some Hours Resistance the Enemy had been driven from three Redoubts, and were entirely dispersed, leaving four Pieces of Cannon Six-pounders to the Imperial
