*Naples, November 27.*

**L**AST Week M. Ulloa, by express Commands from the King, set out from this City to Aquila, to enquire into the Quarrel which lately happened between the President and the Ministers of that Province, on Account whereof the President has retired to Salerno. On the 17th Instant we had a violent Hurricane from the Sea, which by the Advices we have received from the different Parts of the Two Sicilies, occasioned many Shipwrecks upon those Coasts. On the 18th their Majesties with the Royal Family, attended by their respective Retinues and Guards, returned to this City from Portici. The Commander of the Castle of the Pantelleria has been dismissed from that Employment, and put under Arrest, on Account of the Escape which Don Anthony Filomarino had made from that Castle, who was, by the King's express Orders, confined there for Life. On the 21st the Marquess de l'Hopital, the French Ambassador to the King, who a few Days before had an Audience of Leave of their Majesties, set out from this City on his Return to France, having left here M. de Artene, Secretary of the Embassy, to take Charge of the Affairs of that Court. The Masters of the Dutch and English Ships having on their Arrival at this Port, submitted to shew their Bills of Lading, the Master of a French Vessel which arrived here the other Day, complied likewise therewith. On the 22d the Carthusian Fryars sent to the King the usual yearly Present of all Sorts of fresh Fruits, Sweetmeats, live Partridges, Pheasants, &c. which was carried to the Palace in great Form. On the 23d the King went to the Lake of Ligola, to take the Diversion of Shooting, on which Occasion the Marquess of St. Marco, Master of the Horse to the King, was, by the bursting of his Gun, slightly wounded in his Breast and Right Hand. There are several Robberies committed almost every Night, in all the Quarters of this City, and even one of the King's own Coaches was entirely stripped, a few Nights ago, before the Palace, although surrounded as it were by Centinels and Guards.

*Rome, Nov. 31.* Last Week the Pope summoned a Consistory of many Cardinals, to ex-

amine the Process which has been formed against a Bishop of Corfica, who, in the Time of the Troubles in that Island, was arrested by the Genoese, on Pretence of Disaffection to their Government, and who ever since that Time has been kept Prisoner at Genoa; but as the Cardinals differed in their Sentiments with the Pope, the Decision was suspended. On the 22d Instant died the General of the Jesuits, and the next Day Father Vicentini was appointed Vicar General of that Order.

*Genoa, Dec. 7.* Every Thing here is in a profound State of Tranquillity. This Government is fully employed about re-establishing the Bank of St. George, wherein they encounter great Difficulties; however, it is the general Opinion, that something will be fixed on very soon. Affairs in Corfica continue in the same Situation they have been in for some Time past, A new Contract has lately been given out by M. Chauvelin for supplying the French Troops there with Provisions, which is to commence the 1st of January next.

*Warsaw, Dec. 8.* The Measures that have been taken for the Security of the Frontiers of Podolia and Volhinia, have been attended with all the Success imaginable. The Heyducks, who have committed the most unheard of Cruelties in those Provinces, have been entirely defeated and dispersed by the Detachments that have been sent against them: And Advice having been received, that some small Bodies of them have since appeared towards Lithuania and the Western Provinces of Great Russia, a considerable Body of Troops are sent in Pursuit of them. The Distemper amongst the Horned Cattle continues still to rage very much in Great Poland. A few Days ago the Ceremony of the Nuptials of Prince Jablonowsky with a Daughter of Count Sapihea, heretofore General of the Artillery of the Great Dutchy of Lithuania, was performed with great Splendor at Jablonow, several of the First Families in this Kingdom having been invited thither on that Occasion. The Proceedings of the Tribunal of Petrikaw go on with great Tranquillity.

*Vienna, Dec. 9.* Yesterday the Emperor's Birth-day was celebrated at Court with great Magnificence; he then entered into the 43d Year
