The Second Edition of

**LES MOEURS; or, MANNERS.**

Accurately Translated from the French. Wherein the Principles of Morality, or Social Duties, viz. Piety, Wisdom, Prudence, Fortitude, Justice, Temperance, Love, Friendship, Humanity, &c. &c. are described in all their Branches; the Obligations of them shown to consist in our Nature, and the Enlargement of them strongly enforced. Here Parents are taught, that, giving Birth to a Child, scarcely entitles them to that honourable Name, without a strict Discharge of Parental Duties; the Friend will find, there are a Thousand other Decorums, besides the doing of a Favour, to entitle him to the tender Name of Friend; and the Good-natur'd Man will find; he ought to extend that Quality beyond the Bounds of his own Neighbourhood or Party.

The Whole wrote in a Manner entirely New and Entertaining, and enliven'd with real Characters, drawn from Life, and fitted to instill the Principles of all social Virtues into tender Minds.
