*Naples, April 21.*

**O**RDERS are dispatched to the different Provinces of this Kingdom for raising a sufficient Number of Recruits to complete the several Regiments against the general Reviews which the Inspectors of the Troops are ordered to make in the Months of May and June next. We have not as yet received any Confirmation of the Action between our armed Frigates and the Algerine Corsairs, which makes us seem doubtful as to the Truth of that Report. We learn from Capoua, that several Persons belonging to a large Gang of Banditti were lately apprehended there, who having confessed to what Place their Accomplices usually retired, a strong Detachment of Grenadiers are gone in quest of them.

*Turin, April 29.* A Courier is arrived here from Vienna, whose Dispatches we are informed are so pleasing to the King, that 'tis presumed the Difficulties which have so long retarded the Conclusion of the Treaty for maintaining the Repose of Italy, are at length happily removed; and it is not doubted but that the last Hand will now soon be put to that important Affair.

*Vienna, May 3.* The Prince de Campo Reale, Ambassador from the King of the Two Sicilies to this Court, made his publick Entry into this City on Sunday last, and the next Day was admitted to his first publick Audiences of the Emperor, and of the Empress Queen, at Schonbrun. 'Tis said their Imperial Majesties will set out for Laxembourg towards the End of this Week, in order to take the Diversion of Hunting.

*Stockholm, May 4.* The general Diet of the States of this Kingdom is upon the Point of separating, and, to all Appearance, will break up with the same good Harmony that has subsisted through the whole Course of their Proceedings. They have still under Consideration the Methods to be made use of for raising a

Sum sufficient to answer the Expences of the late King's Funeral, and his present Majesty's Coronation. On Friday last the Anniversary of the Institution of the Order of the Seraphims was celebrated at Court; but the King made no Creation of Knights of that Order, as was expected. A few Days ago Count Goes, Envoy Extraordinary from their Imperial Majesties to this Court, received an Express from Vienna, with Dispatches of great Importance, the Contents of which he immediately communicated to the King in a private Audience he had of his Majesty for that Purpose.

*Frankfort, May 9.* We learn by our last Letters from Leipfick, that their Polish Majesties, who had been there, with several of the principal Lords of the Court, during the greatest Part of the Time of holding the Fair, set out from thence on Friday last on their Return to Dresden.

*Berlin, May 10.* A grand Firework is preparing at Charlottenbourg, in order to be play'd off on the Day of Prince Henry's Marriage, which 'tis believed will be celebrated towards the End of next Month. The King having ordered the Troops, quartered in this City, and in all the neighbouring Towns and Villages, to be in the Cantonments allotted for them by the 22d Instant, 'tis expected the Day will soon be fixed by his Majesty for the general Review on the Plain of Templow. On Wednesday last died in this City, Count Dohna, Grand Master of the Queen's Household, and Knight of the Order of St. John of Jerusalem, and on Sunday his Corps was privately interred, agreeable to his Will.

*Dresden, May 10.* The Court is returned from Leipfick; and 'tis said the King's Departure for Fraustadt, in order to sign the Universalia for convoking the general Diet of Poland, will take Place immediately after Whitsuntide. They have lately discovered a Mine of Silver in the District of Plauen, from whence great Advantages are expected.
