Aranjuez, June 5. A Detachment of Infantry, (consisting of about three thousand Men, drawn out of different Regiments) which has been for some Time at Ocanna, learning several new Exercises, under the Direction of Brigadier Don Antonio Manso, marched from thence on the 23d, in order to encamp on a Plain about half a League distant from this Place, and the three following Days was reviewed by his Majesty, who was so well satisfied with the fine Appearance that this select Body of Troops made, as well as with the Manner in which they went through all their different Exercises, that he was pleased to order the private Men triple Pay for five Days, and has since promoted several of the Officers. His Majesty has reserved for his own Determina-

tion, which of the several Exercises, that were performed before him, he will have made use of in his Army. By an extraordinary Messenger, who arrived here on the 23d of last Month, their Catholick Majesties had the Pleasure of hearing, that the Queen of Naples was brought to Bed of a Son on the 11th Instant at Night.
