

Strasburgh give us an account of the Confederates being separated, and gone into their quarters, which they have taken in the Upper and Lower Alsacia, and in Sunrgow. It is reported that Monsieur de Turenne is likewise retired into Lorrain, to take Winter-quarters, but with no certainty, for Letters of the second instant from Mayence, say, that he had then his Camp still at Ingweiler. On Monday last, the Prince of Vandemont parted hence for Spain.

Ditto, Decemb. 11. From Liege of the ninth instant they write, that the Imperial Army commanded by General Spork, having continued till the seventh instant in their Neighborhood, not without giving great jealousy to those of the French party, that day marched from Elcron, where they had their Head-quarter towards Aix la Chapelle, leaving only four Regiments and an half in the Diocess of Liege, to winter there. Monsieur de Louvigny is marched with the Troops under his command for Luxemburgh, where they are to quarter this Winter. The States of Flanders have at last consented to raise 15000 Rations, which is just the half of what was demanded by his Excellency, and 8000 Rations less than they gave his Excellency this year. The Duke d'Archieve Governor of the Province of Hanault, is fallen into a most violent burning Fever, so that he has been five times let blood since Saturday, though without any great signs of amendment.

Paris, Decemb. 8. Our last Letters from Monsieur de Turenne's Army were dated the 30 past, and tell us, that it continued then encamped at Ingweiler, but that Monsieur de Turenne had given orders for its march towards La petite Pi rre, which is about two Leagues from Ingweiler, towards the Frontiers of Lorrain; that the Marquis de Ragni, Colonel of Horse, son to the Duke of Desdiguieres, dyed the 28 past; but that the Marquis de Kaubrun, who has been dangerously sick, begun to mend. The fifth instant, the Baron Sparr, Ambassador Extraordinary from the King of Sweden, had a private Audience of his Majesty on the subject of the Peace. We are told that Commissions are already given out for the raising 10000 Horse, and 20000 Foot, against the next Spring. From Munst they write, that the Elector of Bavaria has at present on foot, 3000 Horse, 600 Dragoons, and 12000 Fantassins, and besides is raising 3000 Horse more, with which Force he is resolved to defend the passage through his Country to what Troops soever.

Hague, Decemb. 11. As yet we seem to discourse with some uncertainty of the designs of the Swedes; however we are told, that the States have resolved to form a flying Army on the Frontiers of East-Friseland, to be ready to assist the Elector of Brandenburg in case he shall have occasion; and it is farther said, that upon the appearance there seems to be of a Rupture with the Swedes, the States have changed the resolution they had taken to reform several Troops, thinking it rather necessary to raise more. In the mean time this State labors all it can to dissuade the Crown of Sweden from entering into the War, but rather to compose amicably through their mediation what difference it may have with the Elector of Brandenburg. From Denmark they write, that they are there putting themselves into a posture of War; though they had advice, that an Ambassador was on his way thither from Stockholm, to assure the King of Denmark of the good inclination and intention of that Crown to live in perfect amity with his Majesty; and some speak of a proposal of marriage between the King of Sweden and the Sister of the King of Denmark. Our Russian Fleet is arrived in the Texel, except three ships,

that were lost coming in. We hear from Liege, that the Imperialists have passed the Meuse at Chinay, and are marched towards Aix la Chapelle.

Falmouth, Nov. 30. We have of late had very bad weather here, though, God be thanked we hear of no wrecks on this Coast, but we have advice, that on the North-coast near St. Agnes, hath been cast away the Delight of Liverpool laden from Ireland for St. Malo; the Master and five more were drowned, and three saved. Near Falmouth hath been lost another Vessel belonging to Kinfaul, of the ships company which were fifteen, seven were drowned. The 27, came in here four French men-of-war, who will sail again for their own Coasts with the first fair wind.

Pendennis, Nov. 30. Here are at present four French men-of-war in Port, one mounted with 26 Guns, two with 28, and one with 26.

Tynon, Nov. 30. We have advice of the loss of two Ships, the one called the Revenge of London, Capt. Leane, Commander, bound for the Canaries, was cast away between the Lands end and Scilly; all the men, which were sixteen or seventeen, being drowned, except two; the other, a ship of Bristol of 250 Tuns, homeward bound from the Barbadoes, was lost near the Lands end.

Parishmouth, Decemb. 3. The last week was cast away a new ship of 200 Tuns laden with Canary Wines, upon the Isle of Wight, all the men, being eighteen, drowned, except four saved.

Whitehall, Dec. 4. This day the Right Honorable the Earl of Stafford was Sworn one of His Majesties most Honorable Privy Councill, and took his place at the Board accordingly.

Whitehall, Decemb. 5. On Tuesday the first instant, was concluded between His Majesties Commissioners, and those of the States General of the United Provinces, a Treaty Marine for all parts of the world, in pursuance of the eighth Article of the late Treaty of Peace made at Westminster in February last.

Whitehall, Dec. 6. His Majesty having been graciously pleased to translate the Right Reverend Father in God Dr. (now late Bishop of Oxford) (and Clerk of the Closet to His Majesty) to the See of Durham, and to make choice of the Honorable Dr. Compton (Brother to the Right Honorable the Earl of Northampton) to succeed in the Bishoprick of Oron, this day was performed the Solemnity of his Consecration in the Chappel of Lambeth, by his Grace the Archbishop of Canterbury, assisted by several other Bishops, in the presence of many of the chiefest of the Nobility, and other Persons of Quality, who were afterwards entertained at a Noble Dinner.
