A Methodical SYNOPSIS of MINERAL WATERS; (being a Work of Twenty-one Years) comprehending the most celebrated Medicinal Waters, both cold and hot, of Great Britain, Ireland, France, Germany and Italy, besides many other Parts of the World. Wherein the several impregnating Minerals being previously described, and their Characteristics investigated, each Water is reduced to its proper Genus; and besides the particular Analysis, the Virtues, Uses and Abuses, of the Waters, are described, in a Method entirely new; with a far more distinct and ample Account of the Sulphurous, Vitriolic, and Copper Waters, than has been published. Interpersed with Tables tending to throw Light upon this intricate Subject: And Abstracts of the principal Authors who have treated on Mineral Waters; and the Accounts of Waters, dispersed in the Acts of the several Learned Societies in Europe, are collected and properly digested.

By JOHN RUTTY, M. D.
